MAUSSNER'S Sanitary Interlaced Hair Mattress.

SAVING EXPENSE OF THE FUTURE. EASILY CLEANED.
BOTH THE HAIR AND TICKING, ALWAYS A CLEAN
BED, EASILY DISINFECTED, ARE SOME
OF THE ADVANTAGES.

CLEAN

The ticking covering these Hair Mattresses can be taken off and washed, like a pillow slip cover is washed; also the Hair Mattress itself can be beaten of dust, and washed. . . .

DURABLE

Mattresses of another system require a great deal of attention, and cost considerable to be kept in a clean and proper condition.

COMFORTABLE

ECONOMICAL

Victory; advantage over any other Hair Mattress.

The Interlaced Hair Mattress presents the best Sanitary conditions. It is more elastic, more durable and comfortable. The cover being removable, can be renewed at pleasure. For Hospitals, Hotels, Steamships, the facility with which these Mattresses can be cleansed, fumigated or disinfected renders them unsurpassed and indispensable.

**WE USE ONLY HAIR IN INTERLACED MATTRESSES.

THE DIAPHRAGM METER is constructed for the cultivation of the exhaling muscles. Blowing a weight $\frac{1}{8}$ to 3 ounces, according to the capacity of the Blower, a distance of from 30 to 40 inches, produces a new force in the air tubes. By gradual practice the muscles get stronger, and the force of the air larger, opening the Lungs to their full capacity, and remove waste tissue from the most remote parts of the Lungs. Forced air is the only power by which the air passages can be cleaned. Tubercle, etc.

By blowing a pulleyweight, the Diaphragm and all the abdominal muscles are brought in action, manipulating the internal organs and remove dangerous depression from the Liver, Heart and Lungs.

PRACTICAL POST-GRADUATE COURSE IN RECTAL DISEASES.

HÆMORRHOIDS, FISSURES, FISTULÆ, ULCERATIONS AND ALL COMPLICATIONS.

HAVING met with remarkable success in the Treatment of Rectal Diseases, which is certainly without parallel, it has naturally excited the greatest interest among, and inquiry from physicians, many of whom are earnestly desirous of studying my methods. While the remuneration derived from the instruction of physicians will be far less than the same time devoted to private practice, I have a great desire to see a large number of physicians utilizing the most scientific methods of Rectal Treatment in this unlimited field. My health having greatly broken from the strain of overwork in the last few years, the fall and winter of 1902 and 1903 will probably be my last personal course of instruction. This course will be the first strictly practical instruction in diseases of the Rectum.

It is most naturally considered that the usual post-graduate course is a most attractive advertising medium for the lecturer, but most unsatisfactory, from a practical standpoint, for the student, it being impossible at a distance from the operator to learn detail and delicate methods, much less acquire them. The plan of this course is distinctly original and thoroughly practical. A hospital with a large number of operating rooms will be provided for the purpose. Each post-graduate student will be personally instructed, and follows the work practically upon the patient, with his own hands, under constant supervision and instruction, until the entire field of Rectal Diseases has been well covered, and he has become proficient in practice. Certificates will be given to all who fully comply with the requirements of efficiency, and each graduate becomes a member of the National Association of Rectal Specialists, organized for scientific advancement and mutual protection.

The course will thoroughly cover the Anatomy of the Rectum, including the fallacy of valves; the Function of the Rectum in health, and the impairment of its Function by disease; practical Diagnosis covering clearly every detail, beautifully simplifying a perfect system by the use of entirely new instruments particularly adapted to the purpose; differential Diagnosis from a clearly scientific standpoint, illustrating the inexcusable ignorance in diagnosing every lump a Pile, and also that of defining Hæmorrhoids as blind, bleeding or itching; the intelligent classification of Ulcerations, proving a very large proportion of all cases which are to-day called Cancer of the Rectum, to be curable Ulcerations; the individuality of Rectal Diseases; the Treatment covering the natural reduction of all Hæmorrhoids without the knife, ligature, or caustic; the new, original and perfect theory of solvents, which has been proven the only scientific treatment for Ulcerations, Abscesses, and Fistulæ; the individual methods of perfect, natural treatment for other diseases of the Rectum; necessary surgery: where surgical methods are to be strictly avoided, and their serious results; the absurdity of Dilatation; complications of the bowels as a cause of Rectal Diseases; Constipation as an expression, and not a disease.

Every preparation used throughout this method of treatment in all Rectal Diseases, is a scientific production of rare and unequalled merit, clearly illustrating the advantages of unremitting toil in the field of Medical Chemistry, and best expressed in the language of all physicians who have personally enjoyed the benefits of this system: "Dr. Browning's methods are unquestionably a century in advance of this day."

This course will be open only to graduates of medicine of good standing, and registered. Not limited to any school.

Further explanation covering the thoroughness of this practical course; and the exhaustive manner in which every detail of Rectal Diseases and their complications will be considered, can be found in a Brochure which will be sent only upon receipt of five two-cent stamps.

ANTIKAMNIA PREPARATIONS

REGISTERED SEPT. 3. 1890

ANTIKAMNIA TABLETS

(1 gr., 2 gr., 3 gr., 5 gr., or 10 gr. each)

Particularly useful in all Headaches, La Grippe, Neuralgias, Toothache and pain about the teeth, and also in all pain due to suppressed or irregular menstruation. The most desirable size is the Five-Grain Antikamnia Tablet.

ANTIKAMNIA & CODEINE TABLETS

(4¾ gr. Antikamnia, ¼ gr. Sulph. Codeine)

ONE SIZE ONLY.

This tablet presents a most meritorious combination, especially useful in affections of the respiratory tract, neuroses of the larynx, la grippe, influenza, etc.

ANTIKAMNIA & HEROIN TABLETS

(5 gr. Antikamnia, 1-12 gr. Heroin Hydrochloride)

ONE SIZE ONLY.

Have no equal in relieving Coughs, Bronchitis, Laryngitis, Pneumonia, Whooping Cough, Phthisis, Asthma and all Respiratory Affections. Expectoration rendered easy without untoward after-effect.

ANTIKAMNIA & QUININE TABLETS

(2½ gr. Antikamnia, 2½ gr. Bisulph. Quinine)

ONE SIZE ONLY.

The therapeutic action of Quinine with Antikamnia is so well understood that the practical uses of this tablet are apparent at once. The Antikamnia prevents the ebriety and ringing sensation produced by Quinine alone.

ANTIKAMNIA & SALOL TABLETS

(2½ gr. Antikamnia, 2½ gr. Salol)

ONE SIZE ONLY.

Hare says: "Salol renders the intestinal canal antiseptic and is the most valued drug in intestinal affections." Hence this tablet is very useful in Dysentery, Indigestion, Cholera Morbus, Diarrhoea, Colic, and all conditions due to intestinal fermentation.

ANTIKAMNIA, QUININE & SALOL TABLETS

(2 gr. Antikamnia, 2 gr. Bisulph. Quinine, 1 gr. Salol)

ONE SIZE ONLY.

Indicated whenever it is desired to relieve pain, administer an antiseptic, and give a tonic in Grippal, Malarial or Rheumatic conditions.

LAXATIVE ANTIKAMNIA TABLETS

(Aloin 1-32 gr., Podophyllin 1-32 gr., Ext. Belladonna 1-32 gr., Cascarin ⅛ gr., Antikamnia 4¾ gr.)

ONE SIZE ONLY.

A Laxative-Analgesic and Antipyretic. Excellent in constipation and in all disorders of the stomach and bowels which are produced by a "sleepy liver."

LAXATIVE ANTIKAMNIA & QUININE TABLETS

(Aloin 1-32 gr., Podophyllin 1-32 gr., Ext. Belladonna 1-32 gr., Cascarin ⅛ gr., Quinine Bisulph. 1¾ gr., Antikamnia 3 gr.)

ONE SIZE ONLY.

A Tonic-Laxative-Analgesic and Antipyretic. This tablet is receiving general recognition as a most reliable remedy for Colds, Coryza, LaGrippe, Influenza, Etc.

ANTIKAMNIA, POWDERED

Too much cannot be said in praise of the original and only reliable Antikamnia, made solely by The Antikamnia Chemical Co. of St. Louis, U. S. A. It is always uniform and therefore gives expected and desired results without untoward after-effects. When prescribing, please specify "Antikamnia—Genuine."

NO TABLETS GENUINE WITHOUT MONOGRAM. Made solely by The Antikamnia Chemical Company, St. Louis, U. S. A. Ounce Packages Only. Price, \$1.00 per ounce **NEVER IN BULK.**

BURN-BRAE, A PRIVATE HOSPITAL FOR MENTAL AND NERVOUS DISEASES...

Founded by the late Robert A. Given, M. D., 1859.

CLIFTON HEIGHTS, Delaware County, Pa.

**E. L. GIVEN, Proprietor. NATHAN S. YAWGER, M. D., Superintendent.
HERBERT C. STANTON, M. D., Assistant Physician.**

This institution is located a few miles west of the city of Philadelphia, at Primos Station, on the Philadelphia & Baltimore Central Railroad, and is designed to accommodate a limited number of patients of each sex.

Burn-Brae has been in operation for almost half a century, and now numbers its friends in all sections of the Union.

No better proof of the confidence reposed in its management by the profession and the community at large, could be given than the extensive improvements and additions that have been made during the last few years—not for the purpose of adding to the number of patients already provided for, but in order to increase the size of the old dormitories, and of erecting conservatories in the ladies' apartments.

The grounds, originally twenty-five acres in extent, have been increased to sixty acres, thus, besides securing to the inmates perfect privacy, affording them in their walks the pleasing variety of hill and valley, meadow, brook and woodland.

The fact is now fully recognized by Psychological Physicians that the less we treat the insane as exceptional beings, by immuring them in large hospitals under strict discipline and modes of life widely different from the social amenities of home, the more likely is recovery to take place. Hence the advantage of small establishments where the arrangements are home-like and familiar.

It is the desire of the management of Burn-Brae to make it in every respect a home for their guests. The location is beautiful and salubrious; the house, though possessing all the safeguards and appliances of a public hospital, in external appearances and internal arrangements presents nothing to unfavorably impress the inmates.

The agreeable and soothing influence of music; the in-door games of cards, chess, billiards, back-gammon, ten-pins, shuffle-board; the open air amusements of croquet, lawn-tennis, cricket and football, are provided for and daily resorted to by patients.

Access from Philadelphia by the Baltimore Pike, or take cars for Primos Station, on Central Division of P., W. & B. R. R., Depot Broad and Filbert Streets, Philadelphia.

All packages by express, postal and telegraphic communications should be addressed

THE Keeley Cure

The world wide fame of the system of treatment discovered and devised by the late Dr. Leslie E. Keeley is earned by its world wide success in relieving over a quarter of a million people from all necessity, craving and desire for **Alcoholic liquors, Morphine** and other drug addictions, **Cigarette and Tobacco** using. Also cures Neurasthenia. Dr. J. E. Blaine, the Physician and Manager of the Keeley Institute of St. Louis was

for eight years the Chief of Dr. Keeley's Medical Staff at Dwight, Ill. No one has a larger or more complete experience in the management and treatment of these addictions than Dr. Blaine. This Institute is most centrally located and complete in every particular. Everything is adapted to make the patient's residence pleasant as well as profitable, with freedom from unpleasant associations, restrictions or publicity. Mental and physical vigor restored. Remedies are absolutely free from any injurious or harmful drugs. Home Treatment for Tobacco and Neurasthenia.

CONDÉ VAGINAL DOUCHE

A marvel of simplicity and efficiency invented by a trained nurse after many years of study and experience, it has no equal.

Recommended by leading physicians, pronounced perfect by the severest critics and used in hospitals where it is giving perfect satisfaction.

A few of the scientific reasons which prove the Condé Douche to be invaluable are given herewith:

1st, Its peculiar shape prevents any of the fluid from escaping around the edges.

2d, Being adjustable it will fit perfectly the vagina of any female.

3d, Having a large outflow tube the largest clot is successfully carried away by it.

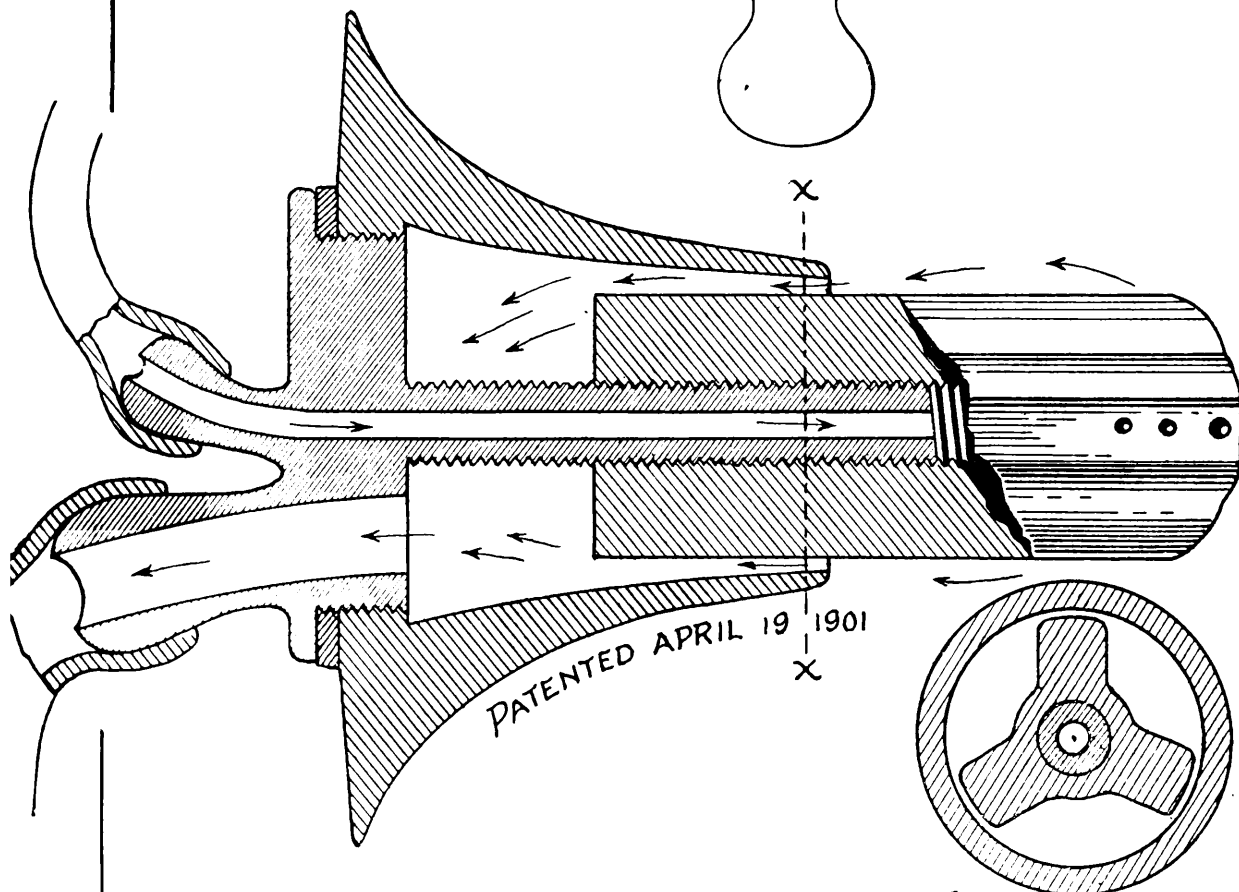

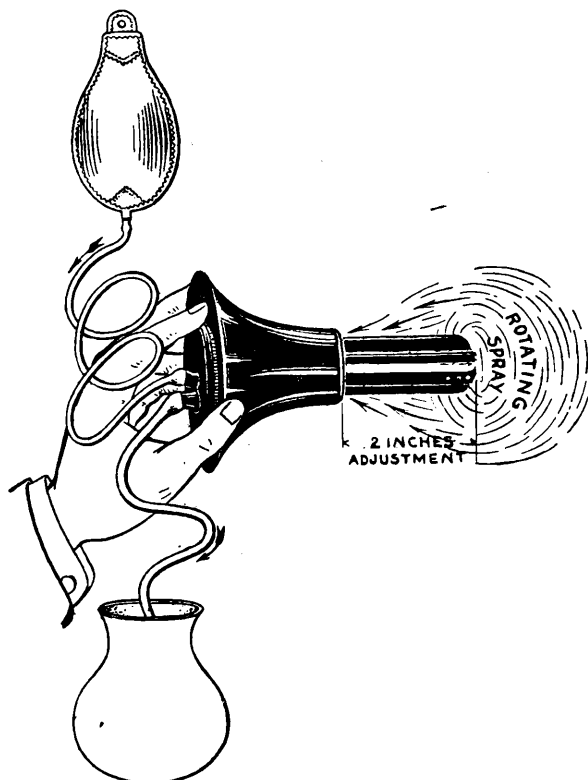

4th, It can be entirely taken apart and thoroughly sterilized.

5th, The Douche can be given with the patient lying in a reclining position as none of the fluid can escape except through the outflow tube.

6th, The sensitive parts being protected a hot douche can be taken many degrees hotter than with any other syringe.

From the foregoing reasons it will be readily seen that the Condé Douche has no equal for treating Leucorrhœa, Endometritis, Cystitis, Ovaritis, etc., as well as for use in confinement cases and diseases where it is impossible or inconvenient to move the patient. It has no bulb to harbor and breed microbes or suction to cause ulcers.

And GOLD MINING brings the largest profits to those who know how and when to invest.

I have been eminently successful in organizing mining companies, the records of which give absolute proof that those who join one of my organizations at the start as Charter Members are certain of big profits in a very short time,

FRANK C. SMITH.

For instance, THE BURNS-MOORE MINING AND TUNNEL CO. organized April 15th, 1901, stock sold at 10 cents per share! September 15th, 1901, stock had advanced to 30 cents and over 1,000,000 shares sold. The BURNS-MOORE was my best.

THE BURNS-MOORE CO. is composed almost entirely of Doctors, 1,000 having joined it.

STILL BETTER.

I am going to organize a Company on the HUMBOLDT MINE, which is in line of that tunnel and will be opened by it 2,000 feet deep.

THE HUMBOLDT MINE has produced over \$200,000 in gold and silver above the 150 foot level. The Directors and Officers will be chosen from the Shareholders.

DR. BRANDT'S Electric Enveloper

(PATENT APPLIED FOR.)

ONE OF DR. BRANDT'S TREATING ROOMS.

Combines ALL THE ADVANTAGES of Electric, Turkish and Vapor Baths with NONE OF THEIR DISADVANTAGES.

PHYSICIANS! You need not send your patients to Hot Springs.
You can treat them successfully in your own office.

As shown in the cut, the patient reclines comfortably on a couch or table, rolled first in a woolen blanket, then in the Enveloper. Current from a regular incandescent light is now turned on, passing first through the controlling box. The patient experiences a luxurious heat, which gradually increases (the amount of heat given is governed by operator through a switchboard on the controlling box). A copious perspiration is developed, which does not weaken, but exhilarates and strengthens. The Medical Profession will readily understand without eulogizing the great merits of this treatment in a large number of diseases. Absolutely no danger connected with operating machine or robe. Any electric light current can be used. Nothing to get out of order, as both box and enveloper are made very substantial. Can be carried in a dress suit case to patient's house. Only a limited number sold in each city. Price, \$100.00. Will pay you a larger interest than any investment you ever made. Order at once.

FRANCIS GRAY BLINN, M. D.

Hours: 9 to 1.

165 West 47th Street, NEW YORK.

DEAR DOCTOR:—

Pardon the liberty I assume in again calling your attention to the fact that I am making a special study of female complaints, and would respectfully request your personal recommendation to such patients as you may conclude you cannot conveniently attend.

You probably have among your clientele some who require personal care as well as experienced nursing, allow me to state in closing, that in this class of cases we are especially successful.

Very truly yours,

F. GRAY BLINN.

ST. JOSEPH'S INFIRMARY.

THIS magnificent brick and stone structure was built and is owned by the Sisters of Charity of the Incarnate Word. Located in the suburbs on the highest elevation overlooking the city of Fort Worth and surrounding country. Its construction and equipment are strictly modern, being heated throughout by hot water, lighted by gas and electricity, and provided with baths of every description. Unlike most hospitals, it has no wards, but its body and long wings, which are surrounded by broad piazzas, are divided into large and well ventilated rooms, including comfortable reading and lounging rooms for convalescents. An invitation is extended to all reputable members of the profession to bring or send their patients needing hospital treatment. Physicians are cordially invited to visit the Infirmary whenever in the city. Rates range from one to three dollars per day, according to the size and location of the room. This includes board and ordinary nursing. Medicine and special nursing extra. For additional information address **Mother Superior, St. Joseph's Infirmary, Fort Worth, Texas.**

SEVENTH REVISED EDITION.

1902.

PRICE TEN DOLLARS.

R. L. POLK & CO., PUBLISHERS,
DETROIT. BALTIMORE. CHICAGO.

Entered according to Act of Congress in the year 1902 by R. L. POLK & CO., in the Office of
the Librarian of Congress, Washington, D. C.

SYNOPSIS OF CONTENTS.

The seventh revised edition of Polk's Medical Register and Directory of the United States and Canada contains 3008 pages.

The first 190 pages are devoted to general miscellaneous information and embrace: National and Inter-State Associations and Societies Relating to Medicine and Surgery; the Army Medical Museum at Washington; the U. S. Naval Museum of Hygiene at Washington; Officers of the Medical Department of the U. S. Army; Medical Corps of the Navy of the United States; U. S. Marine Hospital Service; Roster of Examining Surgeons appointed under authority of the Commissioner of Pensions; Existing and Extinct Medical Colleges of the United States and Canada; Auxiliary and Post-Graduate Institutions and Courses; Medical Journals in the United States and Canada; Medical Libraries and Medical Departments in General Libraries in the United States and Canada; Therapeutic Classification of American Health Resorts by Guy Hinsdale, M. D., etc.

Pages 191 to 2130 contain the List of Physicians and Surgeons or Directory proper, arranged by States, Territories and Provinces, giving postoffice address, with population and location, the school practiced, date and college of graduation, etc. At the commencements of the list for each State, territory or province is a descriptive article embodying such matters as location, boundaries, latitude and longitude, extent in miles and acres, statistics regarding climate, population, etc., followed by lists of Medical Colleges, Board of Health, Board of Medical Examiners, Hospitals, Sanitariums, Dispensaries, State Institutions and a synopsis of the law for regulating the practice of medicine.

This is followed by the Supplement, which contains names of physicians received too late for compilation in their respective locations, also changes in information, removals, and items of miscellaneous information regarding Medical Institutions, Societies, etc., received too late for insertion in their proper place in the work, lists of late graduates as far as they could be procured from the colleges and a list of American Practitioners located abroad.

Pages 2171 to 2789 contain the Index to Physicians in the United States arranged alphabetically, where reference is made to the page on which each name appears, with address and full medical record.

The work is supplemented by a Classified Business and Physicians' Supply Department, embracing a list of the leading firms in the United States and Canada engaged in the manufacture and sale of goods pertaining to the profession of medicine. Each class is embraced in one list and arranged by States and cities or towns.

NOTE.—Special attention is called to the fact that the asterisk (*), meaning "no report received in answer to inquiry regarding graduation," was only used after a research of the alumni lists of all existing colleges had failed to yield any particulars, and does not at all imply that the physician after whose name it appears is a non-graduate. Doubtless the names of some are so inserted who are graduates and prominent in their profession; in such cases the publishers found it impossible to secure the desired graduation data before going to press.

The Publishers invite friendly criticisms of the "Register," and will be glad to receive notice of errors or omissions, also of deaths and changes of address.

PLANTOSE

*A Natural Chemical Pure
VEGETABLE Albumin.*

Plantose is made from seeds and is a natural boiled albumin.

Like meat and eggs, it is insoluble. This insolubility has the advantage that Plantose in regard to the digestion in the human stomach is not only equal to the albumin of other nutrients but by reason as a powder of the finest distribution is even still better utilized than meat and eggs.

Another great advantage of Plantose is that there are no chemicals used in the manufacture.

Plantose is absolutely free from bacteria, therefore can be kept any length of time and in any climate.

Plantose as a dry substance contains 99 per cent. pure albumin and is indispensable in all those innumerable cases where the body has to be supplied with concentrated strengthening nutrients without overburdening the stomach, as in stomach and intestinal diseases, tuberculosis, diabetes, gout, etc., briefly, where a strengthening effect must be obtained quickly in cases of great weakness, emaciation or collapse.

Because one pound of Plantose is equal in nutriment to seven pounds of best beef it is of the greatest value for military, navy and other expeditions where the maximum of nourishment is needed with the minimum of bulk.

Plantose is a fine, whitish, tasteless and odorless powder which can be stirred into soups, chocolate, cocoa, etc., or mixed into bread, cake, pastry, etc., without affecting the taste in the least, yet increasing immensely the value of nutrition of the food.

Plantose can easily be taken in larger doses (up to five ounces daily), for a long period without the least disagreeable effect; it is well adapted for use in infectious diseases of febrile conditions.

Plantose has been tested in large hospitals with results that show the superiority of Plantose to meat, eggs and all present albumins on the market.

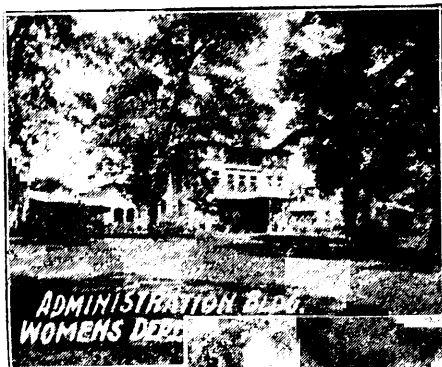

Samples and literature will be furnished
free of charge by the

United States Plantose Co., Ltd.,

OAK GROVE

Flint, Mich.

A Hospital for the
Treatment of Nervous
and Mental
Diseases.

ESTABLISHED IN
1891

BUILDINGS modern and free from institutional features; located in a grove of sixty acres of stately oaks; erected with especial reference to the needs of patients suffering from nervous and mental diseases.

Picturesque grounds which have been preserved in their natural beauties afford abundant facilities for recreation. Charming drives in and about Flint, for which *carriages are provided without charge*, are given patients daily. Outdoor sports and indoor amusements are special features. Buildings are of substantial construction, perfectly heated and ventilated, and luxuriously furnished. Home comforts and restful surroundings are assured to those seeking relief from disease, and to invalids requiring quiet, healthful influences. Purest water in abundance is supplied from artesian wells. A flowing well on the premises 265 feet in depth supplies an alkaline mineral water, said by the analytical chemist to be of medicinal value in catarrhal disturbances of the stomach and biliary passages, and in rheumatic affections. Copy of quantitative analysis furnished on application.

The hospital cuisine is strictly first-class, and effort is constantly made to meet individual tastes and preferences. Milk is furnished by a private herd of well-selected cows.

NOYES HALL, completed in the spring of 1896, furnishes ideal advantages for indoor amusements. The corridor connecting, provides, above, a hall for dancing and assemblies, below, a bowling alley. In the building proper, there are contained, gymnasium, billiard and card room, ladies' sitting room, lounging and smoking room and library, Turkish bath and electrical room.

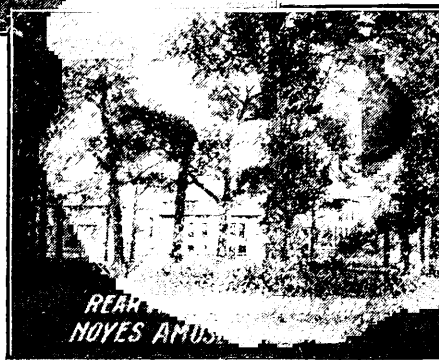

The hospital is thoroughly equipped with the latest modern appliances for treatment, including Static, Faradic and Galvanic apparatus and Electric bath. Massage and Electric Massage are intelligently administered.

Flint is a beautiful city of ten thousand inhabitants, located in a prosperous agricultural region of Michigan. It is easily accessible from points east and west, being situated upon the Trunk lines, Chicago & Grand Trunk and Pere Marquette Railways.

DR. BURR, Medical Director, was for sixteen years connected with the Eastern Michigan Asylum, and for five years superintendent of that institution.

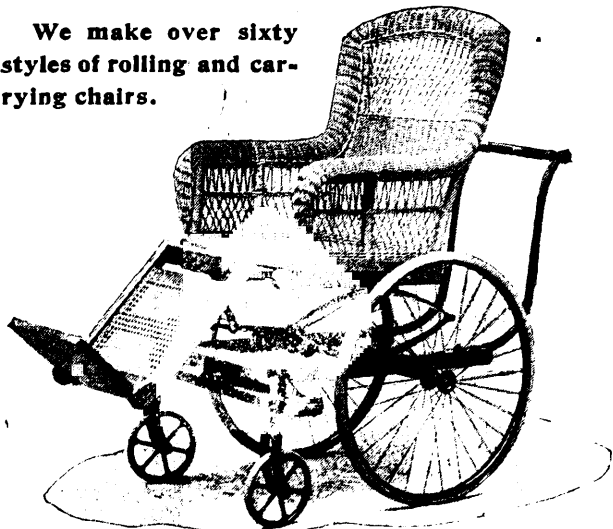

A limited number of patients received. For further particulars, address

DR. C. B. BURR, Medical Director, FLINT, MICH.

THE SOUTHERN PINES SANITARIUM

A thoroughly equipped institution, located in the finest climate in the world, for the treatment of tuberculosis and other chronic and nervous diseases. Much of the reputation of Southern Pines as a health resort is due to the good work done at this institution. 238 patients were treated last season from 19 different States, Canada and Mexico. In equipment and furnishings it represents a greater outlay than all other Sanitariums in this section combined.

NATIONAL VOLUNTEER EMERGENCY SERVICE MEDICAL CORPS.

A volunteer military medical organization. The Field Service Corps is composed of civilians from the various walks of life, medical students, nurses, pharmacists, physicians, and ex-army, navy and national guard medical officers, who act respectively as privates of the Hospital Corps, nurses, hospital stewards, assistant surgeons, surgeons, line officers, etc. Enrollment in this branch does not entail

leaving usual occupation. Same system as national guard and state militia prevails. The corps is modeled somewhat after the Volunteer Medical Staff Corps and St. John's Ambulance Corps of England. On a strictly military basis with a full complement of line officers, commissioned and non-commissioned officers, chaplains, sanitary engineers, trumpeters, artificers, teamsters, wagoners, cooks, etc. With its independent adjutant, paymasters, judge advocate, purveyors, quartermasters, commissary and inspector-general departments, and will be permanently organized in every city in the Union on the same basis and bear the same relation to the community in protecting the health and life of the people as does the national guard and state militia in guarding the property of the citizen.

Lectures and instruction are given by the division, company and squad medical officers; this course of instruction includes, in addition to the ordinary drills and training of an infantry corps (given by the line officer in command of a company), special training in stretcher and ambulance drill, application of splints, bandages, etc., transportation of the wounded, common means employed for the urgent relief of sick or injured; care of contagious and infectious diseases, quarantine, conduct at catastrophies and epidemics, etc.

The chartered objects of the corps are: "To render medical or other aid and relief to the community in event of pestilence, catastrophe, war, etc., by maintaining an equipped service corps, to anticipate, prepare, and execute sanitary measures with the concurrence of health authorities, which will insure the health and safety of life and limb of the people. To render aid to injured, transport sick and injured to place of succor, to provide food, medical relief, medicines and temporary shelter to victims of calamities, etc., as exigencies may require. To encourage the reading and discussion of papers on subjects pertaining to sanitary, medical, climatological, military, hygienic and public health matters, and to place equipment and service at the disposal of civic and military authorities of National or State Government, subject to requisition on call."

ARMY MEDICAL MUSEUM AT WASHINGTON, D. C.

The Army Medical Museum was removed in 1887 from the building formerly known as Ford's Theater (Nos. 509 and 511 10th st. n. w.), and now occupies a portion of the building erected for it at the northwest corner of 7th and B streets s. w., east of the National Museum. The rest of the building is occupied by the Library of the Surgeon-General's office, a portion of the Record and Pension Division of the War Department, and the Laboratory.

The museum was founded, and a large portion of the medical and surgical specimens collected, during the war of the rebellion. Since the close of the war, however, the officers in charge have continued to collect specimens from the medical officers of the army at the several military posts, and a number of valuable specimens have been contributed by physicians engaged in private practice. Specimens of value from private physicians are always gladly received, and thus secure permanent preservation in connection with the names of the donors.

According to the report of the Surgeon-General for the fiscal year, terminating June 30, 1899, the museum contained 35,039 specimens. The collection is open to visitors daily from 9 a. m. to 4 p. m.

It is richer in specimens illustrative of the results of gunshot wounds, and of the surgical operations which they necessitate, than any other collection in the world. The other departments, though not equal to some of the wealthy and long-established museums of Europe, are nevertheless by far the most important in America, and are annually increasing in extent and value.

The library is the largest and most valuable medical library in the world. According to the Surgeon-General's latest report, it contains about 140,539 volumes and 236,728 pamphlets, and is steadily increasing. Medical men from any part of

the country desirous of consulting the works in this library are courteously welcomed and granted free access.

The Curator of the Museum is Major Walter Reed, Surgeon, U. S. A., and the Library is in the immediate charge of Major J. C. Merrill, Surgeon, U. S. A. Colonel Calvin DeWitt, Assistant Surgeon-General, is in charge of the whole which is known as the Museum and Library Division of the Surgeon-General's office.

U. S. NAVAL MUSEUM OF HYGIENE AT WASHINGTON, D. C.

The United States Naval Museum of Hygiene, now located at 23d and E streets n. w., in the buildings recently vacated by the Naval Observatory, was organized by Congress in an Act making appropriation for its support for the fiscal year ending June 30, 1883.

The plan, briefly described, comprehends a collection that shall be illustrative of the entire range of sanitary science, the establishment of a course of lectures by authoritative sanitarians from all sections of the country, and a library of sanitary science, accessible, under proper restrictions and guarantees, to all who are engaged in the study of this branch of knowledge. The library already numbers many of the standard sanitary works in the English, French and German languages, and is constantly increasing.

The institution is fully equipped with chemical, bacteriological and physiological laboratories, and for the first time in its history has ample space for the proper classification and display of exhibits, now numbering over 2,000 specimens.

Contributions from medical men and sanitarians of the country, of essays, drawings or specimens bearing in any way upon hygiene or sanitary science are respectfully requested, and will be permanently preserved under the names of the donors.

CIRCULAR FOR INFORMATION OF PERSONS DESIRING TO ENTER THE
MEDICAL CORPS OF THE U. S. NAVY.

A candidate for examination and appointment in the Medical Corps of the Navy must be between twenty-one and thirty years of age, and must apply to the Honorable Secretary of the Navy for permission to appear before a Naval Medical Examining Board.

The application must be in the handwriting of the applicant, stating age and place of birth; also the place and State of which he is a permanent resident, and must be accompanied by letters or certificates from persons of repute, testifying from personal knowledge of his good habits and moral character, and that he is a citizen of the United States.

FORM OF APPLICATION.

..... 19 .
Sir: I request permission to be examined for an appointment as Assistant Surgeon in the United States Navy.

I was born at, and was years of age on the day of, 190., and am a citizen of the United States, residing in....., county of, in the State of

I enclose herewith certificates as to moral character, habits and citizenship.
Very respectfully,

.....
The Honorable Secretary of the Navy,
Navy Department, Washington, D. C.

If, in reply to the above, the candidate receive a permit, he will notify the President of the Board of the fact, and request him to appoint a time for his examination.

Candidates will be expected to present to the Board testimonials of educational and professional fitness.

The Boards are required, under oath, to report on the physical, mental, moral, and professional qualifications of the candidate, so that the examinations are necessarily rigid and comprehensive, though simple and practical, and not beyond the attainments of any well-educated physician.

A successful candidate, upon completion of his examination, will be notified by the President of the Board that he has been found qualified.

An applicant found "not qualified" may be allowed a second examination after one year, but not a third.

No allowance will be made for the expenses of persons undergoing examination, which, if uninterrupted, is usually completed within ten days.

Appointments will be made as vacancies occur, and in order of merit reported by the Board, but a qualified candidate, not appointed within a year, must be re-examined.

The officers of the Medical Corps of the Navy are as follows: Medical Directors, Medical Inspectors, Surgeons, Passed Assistant Surgeons, and Assistant Surgeons.

Vacancies in these grades (by death, or retirement at the age of sixty-two years) are filled in the order of seniority, and for each promotion a physical and a professional examination is required by law.

Assistant Surgeons are examined at the expiration of three years' service, and, if successful, become Passed Assistant Surgeons.

ORDER OF EXAMINATION.

I.—Physical. II.—Written. III.—Oral. IV.—Clinical. V.—Practical.

I. PHYSICAL EXAMINATION.

The physical examination will be thorough and the candidate will be required to certify, under oath, that he is free from any mental, physical and constitutional defects.

II. WRITTEN EXAMINATION.

1. The candidate will be required to address a letter to the Board of Examiners, stating concisely—

(a) The date and place of his birth; the school or college at which he received his general education; the medical school or schools at which he received instruction, and, if an alumnus, the date of his graduation and the time when he commenced the study of medicine, also the titles of the text-books studied.

(b) The opportunities he has had of engaging in the practice of his profession, and whether he has or has not been a resident physician or interne in a hospital.

(c) The candidate will append to this letter his name in full, postoffice address, and his local address at the date of the examination.

2. A thesis or short essay must be prepared (without reference to notes or books) upon some professional subject indicated by the Board, and answers will be required on the usual professional subjects, including hygiene and quarantine; also, general educational subjects.

III. ORAL EXAMINATION.

The candidate will be examined orally upon the usual professional branches, including hygiene and microscopy, and upon general educational branches.

IV CLINICAL EXAMINATION.

The clinical examination of patients will be made by the candidate at a naval hospital, and will include the use of the microscope, thermometer, laryngoscope, ophthalmoscope, and other aids to physical diagnosis; after which he will be required to submit a written report on one or more cases.

V. PRACTICAL EXAMINATION.

The practical examination will comprise surgical operations on the cadaver, the application of splints, bandages, and surgical dressings, the use of the microscope (for clinical purposes and the recognition of pathological or other specimens), and chemical and pharmaceutical manipulations.

A candidate may withdraw at any period of the examination, with the consent of the Board, and may, at a future time, present himself for re-examination.

The Board may conclude the examination (written, oral, or practical) at any time, and may deviate from this general plan in such manner as it may deem best to insure the interest of the naval service.

JOHN D. LONG, Secretary.

NOTE.—For further information apply to President Naval Medical Examining Board, Naval Laboratory and Department of Instruction, Brooklyn, N. Y., or President Naval Medical Examining Board, U. S. Naval Hospital, Navy Yard, Mare Island, Cal.

POLK'S DENTAL REGISTER

of the United States and Canada.

The fifth revised edition will be issued in 1902. It will contain the names and addresses of over 25,000 DENTISTS, with GRADUATION PARTICULARS, a list of all DENTAL COLLEGES in the United States and Canada, and a synopsis of the STATE LAWS for regulating the practice of Dentistry, etc., also a vast amount of other information of special interest to the Dental Profession, calculated to insure for it a large and general circulation.

It is the only standard and recognized Dental Directory and list of Dental Institutions and Societies in the United States and Canada.

PRICE, \$10.00 PER COPY.

FIFTH REVISED EDITION.

R. L. POLK & CO.'S DENTAL REGISTER,

OF THE UNITED STATES AND CANADA.

The revised edition, to appear in 1902 will contain the names and addresses of over 25,000 Dentists, a list of the DENTAL COLLEGES in the United States and Canada, a synopsis of the LAWS for regulating the practice of Dentistry, and the Graduation Particulars of each Dentist. It will also include a vast amount of other information of special interest to the Dental Profession, calculated to insure for it a large and general circulation throughout both countries.

It is the **ONLY NATIONAL PUBLICATION** of the kind, and is conceded to be the standard and recognized Dental Register, and list of Dentists, Dental Institutions and Societies.

If you have anything to say to the **25,000 DENTISTS** in the United States and Canada, there is no better or more economical way of saying it to them than by an advertisement in the Register; or, if you wish to send them your circulars, the Register contains the list in convenient form for addressing.

PRICE OF REGISTER, PER COPY, \$10.00.

The Walter Sanitarium,

WALTER'S PARK, PA.

The most delightfully located of all Sanitariums.

Two hours from Reading Terminal, Philadelphia; four hours from New York—Jersey Central Railroad, foot of Liberty Street. Wernersville Station.

On the hillside overlooking one of the most beautiful valleys in the world. Natural park of 600 acres.

SCENERY often declared by travelers "equal to anything in Europe or America."

AIR pure, dry, bracing. Malaria absolutely unknown among the residents. Mosquitoes equally so. One thousand feet above tide water.

CLIMATE for winter or summer said to be "the finest in the world."

WATER similar to, but (by actual analysis) purer than Poland. Write for analysis.

BUILDINGS of granite rock, 300 feet front, 5 stories in height; erected for their present purposes by their present owners and managers to answer their needs as physicians. Heated by steam and open grates. Lighted by electricity (our own electric light plant). Hydraulic elevator. Finished and furnished in excellent style. An extensive patronage of cultivated people

EXTENSIVE APPLIANCES. Baths, Massage, Electricity, Swedish Movement Cure (operated by steam), Vacuum Treatment, Spinal Stretchings, Scientific Medication.

Forty years of personal and professional experience with sanatory methods for the cure of human ailments enable us to speak of their value with somewhat of authority.

Excellent livery—standard-bred horses and Shetland ponies. Fine Jersey Dairy.

SOLID VESTIBULE TRAIN SERVICE VIA

Grand Trunk Railway System

IN CONNECTION WITH THE

Picturesque Lehigh Valley Railroad, via Niagara Falls.

**GRAND TRUNK NEW SINGLE ARCH DOUBLE TRACK STEEL BRIDGE
 OVER THE NIAGARA RIVER.**

The new bridge is a single steel arch of 550 feet in length, supplemented by a trussed span, at either end, of 115 feet in length. This with the approaches, makes the total length of the bridge slightly over 1,100 feet. The railway tracks surmounting the bridge are 252 feet above the water. The bridge has two decks or floors. On the upper floor there are two tracks for railway purposes exclusively, while the lower floor contains a wide central carriageway, double electric railway tracks, and on either side passageway for pedestrians.

As an evidence of the enormous strength of this beautiful structure, the arch is designed to carry on each railway track load of two locomotives with four pairs of drivers each and 40,000 pounds on each pair, followed by a train of 3,500 pounds per running foot, and is designed to carry in addition a live load of 3,000 pounds per running foot on the lower floor. The general public will, however, probably be better able to arrive at a correct understanding of the enormous sustaining power of the new bridge by the fact that it is calculated to sustain a weight of something over six times the sustaining capacity of the historic Suspension Bridge, which it replaces.

G. H. FONDE, M. D., Adjunct to Chair of Theory and Practice and Lecturer on Physical Diagnosis.

The thirty-sixth annual course of instruction will begin October, 1902, and continue six calendar months. The course of study is strictly graded, embracing four terms of six months each, in four separate years. It includes a Department of Pharmacy, didactic and clinical lectures and demonstrations, supplemented by recitations and quizzes conducted by professors and special instructors, and practical laboratory work in Chemistry, Pharmacy, Anatomy, Microscopy, Physiology, Histology, Pathology, Bacteriology, and Operative Surgery.

The Department of Pharmacy has recently been equipped by the University Trustees with every desirable appliance for pursuing the various branches of study required. The course is largely practical, involving much laboratory work.

The College Building is large and commodious, and admirably adapted to the purposes of medical instruction. The several laboratories are admirably well appointed and equipped with the latest modern appliances, and afford ample and convenient facilities for the practical work exacted of students in the several departments to which they are devoted.

The rooms for Practical Anatomy are large, well lighted and ventilated, and the supply of material abundant. The medical and surgical clinics are held daily at the City Hospital and College Dispensary, where abundant clinical material is offered in every department of medicine and surgery.

ALABAMA,

CAPITAL, MONTGOMERY.

Population of State, 1,828,697.
(U. S. Census of 1900.)
Number of Physicians, 2,190.

Alabama was organized as a territory March 3, 1817, and admitted as a state December 14, 1819. It extends from 30 degrees 12 minutes north latitude to 35 degrees north latitude, a distance of 331 miles; and from 84 degrees 55 minutes to 88 degrees 35 minutes west longitude, a distance of 214 miles, and is in the same latitude as Palestine, Northern Africa, Central China and Southern Japan. It is bounded on the east by Georgia, on the south by Florida and the Gulf of Mexico, on the west by Mississippi and on the north by Tennessee, and comprises an area of 50,722 square miles, or 32,462,080 acres. The climate is warm and semi-tropical. The northern portion is considerably colder than the southern, which is accounted for more by its greater elevation than from its higher latitude. The mean annual temperature is 62.37 degrees as observed at Auburn, which is situated near the geographical center of the State. The mean annual temperature in the valley of the Tennessee river is 60 degrees, and in the extreme south about 69 degrees. The rainfall of the State is quite noteworthy, averaging 63 inches, which is distributed with tolerable regularity throughout the seasons. The mineral springs are famous for their medicinal qualities. The following table shows the increase in population for 80 years:

1820.....	127,901	1870... ..	996,992
1830.....	309,527	1880... ..	1,262,205
1840.....	590,756	1890.....	1,513,017
1850.....	771,623	1900.	1,828,697
1860.....	964,201

STATE BOARD OF HEALTH.

The Medical Association of the State of Alabama—Secretary, George P. Waller, M. D., Montgomery; State Health Officer, Wm. H. Sanders, M. D., Montgomery.

BOARDS OF MEDICAL EXAMINERS.

The authorized Boards of Medical Examiners are the Board of Censors of the State Medical Association, which is known as the State Board, and the Boards of Censors of the County Medical Societies holding charters from the State Medical Association. There are sixty-six of these county societies, and therefore sixty-six county boards of medical examiners.

BRIEF SUMMARY OF LAWS AND ORDINANCES REGULATING THE PRACTICE OF MEDICINE IN ALABAMA.

In order to obtain a certificate of qualification to practice medicine in Alabama, a successful examination must be passed before some one of the authorized boards of examiners. The authorized boards are:

1. The State board of Examiners.
2. The County Boards of Examiners, one for each county.

The standard of qualification, the subjects and methods of examination, and the rules for the government of the examining boards are such as may be, from time to time, prescribed by the State Medical Association.

The rules at present in force are briefly stated as follows:

1. All examinations must be in writing, and must comprise ten branches, namely, chemistry, anatomy, physiology, natural history and diagnosis of diseases, physical diagnosis, surgery, mechanism of labor, obstetric operations, hygiene and medical jurisprudence.

Materia medica and therapeutics or the practice of medicine, are intentionally omitted from this schedule, in order to avoid ground upon which different sects or schools of medicine disagree.

By natural history of diseases is meant their causes, symptoms and pathology.

2. The examinations are conducted by a supervisor, who cannot be a member of the board, and in such way as to render it impossible for the applicant to obtain aid. The answers to the questions are separately valued, one hundred being the maximum. For an examination to be successful the final average must not fall below seventy-five.

The time consumed in an examination is usually from five to seven days.

3. In order to appear before a county board of examiners an applicant must hold and present a diploma from a reputable medical college, the State Medical Association determining the question of reputability.

Non-graduates can be examined, but they must apply to the State Board. An applicant rejected by a county board cannot obtain a second examination by the same or any other county board until after the lapse of twelve months, but he may forthwith appeal to the State Board and obtain a new examination.

4. Eclectics, homœopaths, and all irregulars, must be subjected to the same examination as regulars, but neither regulars nor irregulars will be examined as to the methods of treating diseases.

5. Anyone desiring to engage in the practice of medicine in the State may apply for a certificate of qualification either to the board of the county in which he proposes to locate or to the State Board. From whichever source a certificate be obtained it entitles the holder to practice anywhere in the State. A certificate must be recorded in the probate office of the county in which the holder resides, and in case of removal from one county to another the certificate must be transferred.

6. An examination by either a county board or the State Board can be obtained whenever applied for.

Persons desiring to appear before the State Board should give notice a few days in advance.

Examinations by the State Board are held in the capitol, at Montgomery.

Persons desiring to be examined by a county board can obtain full information as to the place where such examinations are held after arriving in the county. Usually such examinations are held at the county seat.

7. All persons proposing to practice medicine in the State must undergo examination, irrespective of any diploma they may hold or certificate of qualification obtained elsewhere.

8. Fee for examination (to supervisor), \$10.00.

Alaska

221

ALASKA.

CAPITAL, SITKA.

Population of District, 63,592.

(U. S. Census of 1900.)

Number of Physicians, 68.

Alaska was purchased from Russia by the United States in 1867 for \$7,200,000 in gold and forms the extreme northwestern portion of the American continent, with a water frontage running from its southern boundary, on Dixon's entrance, washed by the tides of the Pacific ocean, Bering sea and the Arctic ocean, to a point on the latter body at the 141st meridian of longitude. It has a coast line equaling the circumference of the globe, and 7,860 miles greater than the Atlantic seaboard of the United States. The length of this district is more than 2,000 miles; its breadth is over 1,400 miles, and its area is 590,884 square miles. It is twice as large as the state of Texas and twelve times as large as the state of New York. It is bounded on the north by the Arctic ocean; on the east by the British Northwest Territory, along the 141st meridian of longitude, to Mt. St. Elias, near the sixtieth parallel of latitude; thence, generally, along the coast range of mountains to the British Columbia border; and on the south and west by the Pacific ocean and Bering sea.

The climate of Alaska is greatly varied. In the northern section, bordering the Arctic ocean, there is continual ice and snow. It is inhabited by native Eskimos, who live after the manner of their kind. Further south the temperature is more varied, and on the coast it is greatly modified by the influence of the Japan current, the mean winter temperature at Sitka being about 32.5 degrees. Back of the range of mountains, across which the warm winds from the ocean does not blow, the climate is one of extremes, varying, according to locality, from bitter cold in winter to intense heat in summer. Eight months of the year the rivers are practically closed to navigation and communication is had with the outside world by overland trails. The thermometer falls far below zero, varying from 60 degrees and more below, in the northern latitudes, to lesser figures further south. The summer months are short and at times intensely hot, the thermometer often rising to 100 degrees or more. In the south, along the mainland, the long peninsula and the Aleutian islands, the climate is more equable, but remarkable for the precipitation of moisture, resulting in heavy rainfalls and dense fogs. The foregoing weather account is, of course, merely general. Modifications of the statement would be true of many localities, and nothing short of a treatise would embrace them. In general terms, while there is much cold in winter, in the interior, and moisture on the coast, Alaska is not the inhospitable country it was formerly believed to be.

The territory was organized in 1863.

The climate is salubrious and pleasant, except in the lower sections near the Gila and Rio Colorado, where the summers are excessively hot. The air is singularly clear, tonic and dry and particularly favorable to catarrhal and pulmonary complaints. Rainfalls occur during the months of June, July, August and September.

The following table shows the increase in population for thirty years:

Be it enacted by the Legislative Assembly of the Territory of Arizona:

Section 1. It shall be unlawful for any person to practice medicine, surgery or obstetrics in Arizona unless such person shall have obtained a diploma regularly issued by a medical college properly and lawfully organized under the laws of the state or territory wherein said college shall be located.

Sec. 2. It shall be unlawful for any person to practice medicine, surgery or obstetrics in Arizona unless such person shall have passed a satisfactory examination before the examining board hereinafter provided; and provided further, that the provisions of this act shall not apply to women who have practiced obstetrics; provided further, that the provisions of this act shall not apply to resident practicing physicians or surgeons who have already complied with the present existing laws.

Sec. 3. There shall be established in Arizona a Board of Medical Examiners. Said Board shall consist of five members, to be appointed by the Governor within thirty days after the passage of this act, each of whom shall be a graduate physician of at least five years' consecutive practice, and who shall be at the time of their appointment actu-

ally engaged in the practice of medicine, and a bona fide citizen of Arizona, one of whom shall be appointed for the term of one year, one for the term of two years, one for the term of three years, one for the term of four years, one for the term of five years. And hereafter it shall be the duty of the Governor to appoint or reappoint examiners every year as the terms of those heretofore appointed shall terminate, either by resignation, death, or expiration of their term of office. Said appointments shall be made so that said Board of Examiners shall consist of two physicians of the so-called regular school of medicine, and two of the so-called Homeopathic School of Medicine, and one of the so-called Eclectic School of Medicine. Each applicant shall pay the fee of five (\$5.00) dollars before examination, which shall be the only compensation of said Board of Examiners.

Sec. 4. Said Board of Examiners shall organize by electing one of their number as president and one as secretary, and make rules and regulations for the government of said Board. Said Board shall meet quarterly, and at such other times as the Board may deem advisable, and examine all persons eligible to practice medicine under this act; but the examination of each applicant shall be conducted by the members of whichever school of medicine the applicant may choose, and upon their approval a certificate shall be issued by the Board.

Sec. 5. Any person shall be regarded as practicing medicine who shall profess publicly to be a physician, or who shall prescribe for the sick; but nothing herein contained shall be construed to prohibit gratuitous services in cases of emergency, or for a physician or surgeon of the United States army in the discharge of their duties as such; but none of the provisions of this act shall apply to those who are now and who have heretofore legally practiced medicine in Arizona.

Sec. 6. Any person violating any of the provisions of this act shall be guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than one hundred (\$100.00) dollars nor more than three hundred (\$300.00) dollars, or by imprisonment in the county jail for a period of not less than three months nor more than six months, or by both such fine and imprisonment at the discretion of the courts.

Sec. 7. All acts and parts of acts conflicting with this act are hereby repealed; and this act shall take effect and be in force from and after its passage.

Approved March 18, 1897.

ARKANSAS.

CAPITAL, LITTLE ROCK.

Population of State, 1,311,564.

(U. S. Census of 1900.)

Number of Physicians, 2,573.

Arkansas, so called from the Arkansas tribe of Indians, was originally embraced in the territory of Louisiana, and was purchased in 1803 from the French government by Thomas Jefferson. It became a territory March 2, 1819, and was admitted as a state June 15, 1836. It is bounded on the north by Missouri, east by the Mississippi river, south by Louisiana and Texas, and west by Texas and the

Indian Territory. It lies between north latitude 33 degrees and 36 degrees 30 minutes, and between west longitude 89 degrees 45 minutes and 94 degrees 40 minutes. The greatest length from north to south is 242 miles and from east to west 275 miles. The eastern part of the state, embracing a portion of the Mississippi valley, consists principally of a rich alluvial plain, watered by numerous lagoons. The middle section is intersected by the Ozark mountains, dividing the state into two unequal portions, each possessing distinct climatic features. The principal rivers are the Mississippi, forming the eastern boundary, the Arkansas, the St. Francis, the White, the Ouachita and the Red, making over 1,500 miles of navigable streams. The climate is mild; the mean annual temperature in the northern portion being about 58 degrees, in the central 61 degrees, and in the southern 64 degrees. The northwestern portion is the coldest, and the southeastern the hottest. The rainfall varies from 54 inches in the southeast to 40 in the northwest.

The population of the state according to the U. S. census of 1900 is 1,311,564, as against 1,128,179 in 1890, representing an increase since 1890 of 183,385, or 16.25 per cent. The following table shows the increase in population for eighty years:

1820.....	14,255	1870.....	484,471
1830.....	30,388	1880.....	802,525
1840.....	97,574	1890.....	1,128,179
1850.....	209,897	1900.....	1,311,564
1860.....	430,450		

The total land surface of Arkansas is, approximately, 53,045 square miles.

Hot Springs, a well known health resort, is noted for its many mineral springs, varying from 75° to 157° in temperature and having great curative powers in rheumatic and scrofulous diseases. Eureka Springs is also favorably known for the medicinal qualities of its waters. In addition to these there are a number of other mineral springs in the state.

MEDICAL LAWS OF ARKANSAS.

AN ACT TO CREATE COUNTY BOARDS OF MEDICAL EXAMINERS, AND FOR OTHER PURPOSES, AND TO REPEAL SECTIONS 4968, 4969 AND 4970 OF SANDELS & HILL'S DIGEST.

Be it enacted by the General Assembly of the State of Arkansas:

Section 1. The county courts of the several counties of this State shall appoint a County Board of Medical Examiners in and for their respective counties; the said Board shall consist of three members, learned in the sciences of medicine and surgery, of good moral character, and duly registered, and two members of said Board shall be graduates of some reputable medical college. The members of said Board shall organize by taking the oath of office prescribed by the Constitution, and electing one of their members secretary, and they shall hold at least two meetings a year, at their county sites. The members of said County Boards shall hold their offices for a period of four years, and said Board shall again be filled by appointment by the county court; and all vacancies shall be filled by like appointment; Provided, The county judge may at any time remove any County Examiner for drunkenness or other immoral conduct.

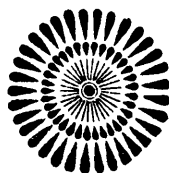

Sec. 2. In counties having two judicial districts there may be appointed two separate Boards, one for each district, in the same manner and with like effect as provided by this act for separate counties.

Sec. 3. The County Boards of Medical Examiners are authorized to examine all persons who may desire to practice medicine, who are residents of the county with the Board, that may apply, and if found qualified to practice medicine and surgery, issue a certificate, which shall entitle the holder to practice in the county in which it is issued, or in any county into which his practice may extend, so long as his residence remains in the county wherein the certificate is issued.

Sec. 4. Such applicant shall pay the County Board a fee of six dollars for the examination.

Sec. 5. That Sections 4968, 4969 and 4970 of Sandels & Hill's digest, be, and the same are hereby repealed, and all other laws in conflict herewith are repealed, and this act shall take effect and be in force from and after its passage.

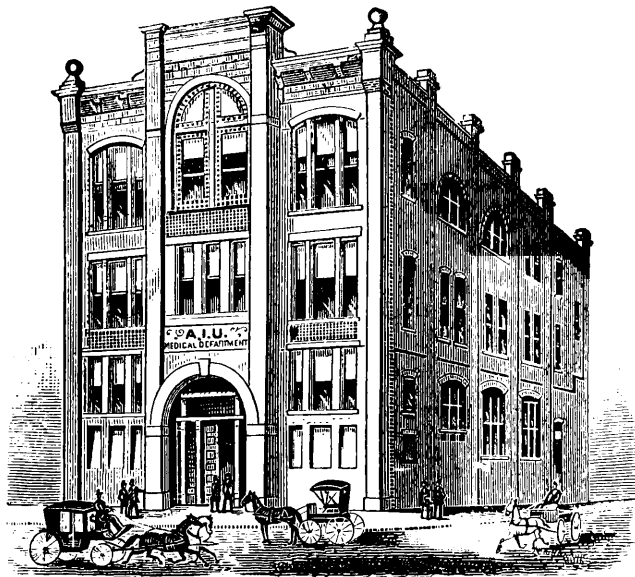

Approved March 26, 1895.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

THE GREAT NORTHERN HOTEL AND BATH HOUSE.

This elegant and "up-to-date" establishment is the most conveniently located Hotel in Hot Springs being just one block from both R. R. depots. The management point with pride to their past fifteen years' record which shows that their efforts have been appreciated by a larger volume of patronage than that of any other first-class hotel in the city. They are also headquarters for the Commercial Travelers.

UNDER AUTHORITY OF THE UNITED STATES GOVERNMENT.

THE GREAT NORTHERN BATH HOUSE.

Under same Roof and Run in Connection with the Great Northern Hotel.

OPEN ALL THE YEAR ROUND.

The Hot Water supplied to this Bath House and used by its patrons is direct from the HOT SPRINGS on the Government Reservation, and is identically the same as that supplied to all Bath Houses on the Reservation. Any person doubting this is respectfully referred for verification to the Superintendent of the United States Reservation. Visitors are warned against any person making a statement to the contrary for personal gain.

The patronage of the public is solicited as the Bath House is not run exclusively for the guests of the Hotel.
Avoid danger of taking colds by stopping at Hotel with Bath House in Connection.

C. S. WILLIAMSON, Propr., **HOT SPRINGS, ARKANSAS.**
(A Resident of 27 years' standing.)

THE ROCKAFELLOW,

E. S. PUTNAM, Proprietor. (Formerly Manager Pullman Hotel.)

A new three-story brick structure, located most pleasantly in Garden District, at junction of Central Park and Whittington avenues. Furnishings new and up-to-date. Interior signal phone service; steam heat, electric lights and gas.

BATH HOUSE, with all latest equipments, in same building, and under supervision United States Government. **RATES: Summer and Fall, \$12.50, \$15.00 to \$17.50 per week; \$2.00, \$2.50 to \$3.00 per day. Winter and Spring, \$15.00, \$17.50 to \$21.00 per week: \$2.50, \$3.00 to \$3.50 per day.**

THE HOT SPRINGS KEELEY INSTITUTE, (ESTABLISHED 1891.)

**For the Treatment of the LIQUOR, OPIUM, CHLORAL, COCAINE,
TOBACCO HABITS and NEURASTHENIA.**

Located at the famous Hot Springs of Arkansas. The only institute in this state using Dr. Leslie E. Keeley's Double Chloride of Gold Remedies. A course of the Hot Springs Baths given each patient during treatment. Our Physician has been in this special line of practice since 1891.

DR. R. M. HUNTINGTON, Manager. 502 Park Ave., (on Electric Car line) HOT SPRINGS, ARK.

THE "DIAMOND JO" SANITARIUM.

The most desirably located of any establishment of its kind in the city, being one-half block from the Hot Springs R. R. Depot, and at the same time off from the noise of business traffic.

The house is brick and modernly built, having been erected and occupied as a residence by the late Diamond Joe Reynolds. It is fitted with Steam Heat; Hot and Cold Water in every room; Gas and Electric Light, and attractively and comfortably furnished throughout.

Dr. JACOB W. McCLENDON, owner and physician in charge, has had 22 years' experience, most of it here.

MISS MARTHA NYEAGGRD, the matron, and her assistants, are professional nurses of long standing.

Potash Sulphur Springs

7 miles east of HOT SPRINGS, ARK.

"POTASH SULPHUR WATER,"

The Great Eliminator of Uric Acid.

Directly benefiting all diseases which arise from faulty Metabolism and defective elimination of tissue waste.

BRIGHT'S DISEASE in its early stages has been cured by this water alone; and receives wonderful benefit at any stage. Especially beneficial in all Stomach and Kidney affections. First-class Hotel Accommodations; Steam Heat; Telephone and Telegraph. Open the year round. Correspondence with physicians solicited. All patients sent by their home physician given personal and strict attention. Water shipped everywhere.

TESTIMONIALS.

DR. A. S. GARNETT.

Hot Springs, Ark., June 4, 1897.

Mr. E. E. Woodcock, Lawrence P. O., Ark.

Dear Sir—The Potash Sulphur Water is so well known from its great efficiency in the relief of diseases of the kidneys and stomach, induced by an excess of uric acid, that we would expect to find it carrying alkaline constituents in large quantities, and this fact is borne out by its chemical analysis, which shows, aside from about six grains of potassium to the gallon, forty-three grains of sodium, making it a very similar water to the Celestine Spring of Vichy, France, one of the most celebrated waters in the world.

A. S. GARNETT, M. D.

DR. R. W. STEGER.

Hot Springs, Ark., June 15, 1897.

Mr. E. E. Woodcock, Potash Sulphur, Ark.

Dear Sir—I have prescribed Potash Sulphur Water largely for patients, both in Hot Springs and Chicago, and feel that I cannot recommend it too highly.

Being free from nitrates, free ammonia organic matter and all deleterious substances, it is an absolutely pure water, and therefore possesses the highest solvent power in the uric acid diathesis.

The presence in Potash Sulphur Water of remedial agents of recognized value in diseases of the stomach, liver, kidneys and urinary organs, makes it of value in this class of cases.

Very respectfully,

R. W. STEGER, M. D.

DR. CHAS. DAKE.

Hot Springs, Ark., June 4, 1897.

Mr. E. E. Woodcock, Potash Sulphur Springs, Lawrence, Ark.

My Dear Sir - Your favor asking for my opinion of the Potash Sulphur Water received, and I can say with pleasure that I regard it as the most potent medicinal spring water that we have in this section of the country.

It has been my custom for the past fourteen (14) years to send cases of uric acid diathesis—such as rheumatism, rheumatic gout and gout—and also cases of renal and hepatic calculi, to Potash Sulphur, as I regard it as being possessed of greater solvent properties than any water I have ever prescribed.

If all rheumatics who contemplate a long stay here could go to Potash Sulphur, after the first course of baths, and remain, say two weeks, and then return for more of the baths, they would receive two-fold benefit from a trip to Hot Springs.

This I know to be true, as I have had many patients who have done this, and the result was always most satisfactory.

Yours truly,

CHAS. DAKE, M. D.

ANALYSIS OF NEW SPRING—Capacity, 10 Gallons per Minute.

	Grains per gal.		Grains per gal.
Silica	2.616	Sodium and Potassium Sulphates	28.103
Oxide of Iron and Aluminum	.046	Sodium and Potassium Chlorides	5.695
Carbonate of Lime	.263	Sulphate of Potassium	1.070
Carbonate of Magnesia	Trace	Sodium and Potassium Carbonates	13.015
			50.808

Contains nearly 51 grains solid matter, per U. S. wine gallon of 231 cubic inches.

"The analysis of this sample shows conclusively the absence of surface water or organic contamination and we would consider it an excellent water from a sanitary standpoint and very valuable in all stomach, kidney and urinary diseases."

The postoffice address is shown in DISPLAY TYPE, the name of the county in
which it is located immediately follows and then the population of the place. The
names of physicians appear under the postoffice name, the first number (the key to
which will be found on pages 131 to 172) indicates the college of graduation, and
the last number the year in which diploma was granted.

CALIFORNIA.

CAPITAL, SACRAMENTO.

Population of State, 1,485,053.

(U. S. Census of 1900.)

Number of Physicians, 3,869.

California, the second largest state on the Union, was ceded to the United States by the treaty of peace which terminated the war with Mexico in 1848, and was admitted as a state in 1850. It extends from 32 degrees 34 minutes to 42 degrees N. latitude, and from 114 degrees 8 minutes to 124 degrees 24 minutes W. longitude, and is bounded on the north by Oregon, on the east by Nevada and Arizona, on the south by Mexico, and on the west by the Pacific ocean. It comprises an area of 188,981 square miles, or 120,947,840 acres. It is naturally divided into four distinct regions: 1. The Coast Ranges; 2. The Sierra Nevada; 3. The Central Valley; 4. The Southwestern Region. California has but two large rivers, the Sacramento and San Joaquin, which traverse the Great Central Valley in opposite directions and empty into Suisun Bay, and the Klamath and Salinas and numerous smaller streams drain the state. The climate of California varies considerably in different portions, the mean annual temperature in the north being below 50 degrees F., while in the southeastern portion it exceeds 70 degrees F. The mean annual temperature at San Francisco for a period of eleven years was 55.23,

and at Fort Yuma for a corresponding period, 74.77. In San Francisco rain falls freely during November and December, and the hottest months are September, October, August and July, in the order named.

The interior of the state, not being influenced by the sea, has a continental climate, and the greater the distance from the ocean the colder the nights and the warmer the days. The average annual rainfall increases from S. to N., and in the Sierra Nevada with the altitude; in Fort Yuma it is but 4 inches; in San Diego, 9.16; in Sacramento, 19.56; in San Francisco, 21.69; and in the Sierra, at an altitude of 5,000 feet, 45 inches and more.

The state has as valuable mineral springs as can be found anywhere, rivaling the famous spas of Europe. Dr. Winslow Anderson, in his work, "Mineral Springs and Health Resorts of California," says:

"In California we have over two hundred cold and hot mineral springs, ranging from the cool, delicious, effervescent soda and sparkling vichy to the ferruginous, saline, alkaline and sulphurous wells, ever ready and overflowing, to be utilized for the healing of the many ills to which the flesh is heir."

"When our California springs become more generally known, and their similarity to the famous European spas is better understood, our invalids may not find it necessary to undertake the long, tedious, expensive, and in many instances hazardous journey, when they can find right here in California, at their very doors, as it were, almost the identical waters, with all the conveniences and luxurious accommodations found abroad, and with the additions of a variety of food products and a pure, dry and balmy atmosphere, and an invigorating and stimulating climate unequalled in any other country in the world."

The following shows the increase of population for fifty years:

1850.	92,597	1880.	864,694
1860.	370,994	1890.	1,208,130
1870.	582,031	1900.	1,485,053

CALIFORNIA BOOKS

A Handsome Series of New and Useful
Publications by the

SOUTHERN PACIFIC.

California Map Folder, complete in detail, indexed, and full of information about the State's resources. It is the only publication of its kind conveniently folded for pocket use.

California South of Tehachapi tells all about the charms of that remarkably favored semi-tropic garden spot, Southern California.

Resorts Along the Coast Line, is a handsomely illustrated folder giving a description of the health and pleasure resorts on the Southern Pacific's Coast Line between San Francisco and Santa Barbara.

Shasta Resorts, illustrated, describes the scenic and outing attractions of the wonderful Shasta region, the grandest of pleasure grounds.

Big Tree Folder, tells all about those mighty forest giants, largest and oldest living things on earth.

New Arizona, a brief review of its resources, development, industries, climate and advantages for home-making.

Yosemite, a book of twenty-eight views of the Valley's noted features, reproduced in colors by photogravures. Also a brief description of the Valley. Send 10 cents.

Sunset, a magazine of the border, the most beautiful publication of the West. Published monthly. Subscription, \$1.00 per year. Single copies, 10 cents.

Other publications are: **Yosemite and Big Trees, Lake Tahoe, Geysers, Napa and Lake Counties, King's River Canyon, Giant Forest, Hotel del Monte, Pacific Grove**, each brimful of information about the places named.

 These Publications can be obtained of any Southern Pacific Agent. If requested by mail enclose a stamp for each publication to cover postage.

SYNOPSIS OF LAWS REGULATING THE PRACTICE OF MEDICINE.

Provision is made for a Board of Medical Examiners, consisting of nine members. The members of said Board shall be elected as follows: Five members thereof shall be elected by the Medical Society of the State of California, two members thereof by the California State Homoeopathic Medical Society and two members thereof by the Eclectic Medical Society of the State of California. Said Board shall hold its regular meetings in the city of San Francisco on the first Tuesdays of April, August and December of each year. Examinations of applicants for certificates may, in the discretion of the Board, be conducted in any part of the State, under the supervision of any one member of said Board upon written questions previously prepared by said Board, the questions and answers to be returned to the Board of Examiners, who shall act upon said application for a certificate in the same manner as if the person had appeared personally before said Board.

Requirements, Examination, Fee.—Every person before practicing medicine or surgery, or any of the departments of medicine or surgery in this State, must have the certificate herein provided for. In order to procure such certificate he must produce satisfactory testimonials of good moral character, and a diploma issued by some legally chartered medical school, the requirements of which medical school shall have been at the time of granting such diploma, in no particular less than those prescribed by the Association of American Medical Colleges for that year; or he must produce satisfactory evidence of having possessed such diploma, or a license from some legally constituted institution which grants medical and surgical licenses only upon actual examination, or satisfactory evidence of having possessed such license; and he must accompany said diploma or license with an affidavit stating that he is the lawful possessor of the same; that he is the person therein named, and that the diploma or license was procured in the regular course, either of instruction or examination, without fraud or misrepresentation of any kind. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such officer, if he have a seal. In addition to such affidavit, said Board may hear such further evidence as in its discretion, it may deem proper, as to any of the matters embraced in said affidavit. If it should appear from such evidence that said affidavit is untrue in any particular, or if it should appear that the applicant is not of good moral character, the application must be rejected.

Beautiful Loma Linda.

THE SWITZERLAND OF CALIFORNIA.

WHERE HEALTH AND PLEASURE ARE TWINS.

In the Foothills of the San Bernardino Mountains, on the Main Line of the Southern Pacific Railroad—Near Redlands, California.

HERE ARE ALL THE CONDITIONS FOR REST AND RECOVERY.

A PALATIAL Hotel and Sanitarium situated upon a beautiful hill in one of the most charming spots in California: Over one hundred citizens of California, including more than eighty physicians and others consisting of Hotel Men, Bankers, Railroad Officials and Business Men of prominence, have associated themselves together to make Loma Linda equal in point of comfort and equipment to any of the Great Health Resorts of the world.

The Main Building, containing sixty-four elegant rooms, is located in a grove of Pepper and Eucalyptus trees: there is a Central Building and a large Amusement Building and a number of Cottages; all provided with electric lights, steam heat, private baths, long distance telephones, etc.

THIS GREAT INSTITUTION has superior advantages for the health and pleasure seeker—its climate is equable and free from frost—the beauty and grandeur of its scenery are unsurpassed. A tour of California would be incomplete without a visit to this charming resort.

Our terms are from fifteen to fifty dollars per week according to cases, rooms occupied, and services necessary. Address all communications to the LOMA LINDA ASSOCIATION, Loma Linda, Cal., or to M. N. ESKEY, Manager, 1319 So. Grand Ave., Los Angeles, Cal.

In addition to the requirements above set forth, each applicant for a certificate must be personally examined by said Board as to his qualifications to practice medicine and surgery. The examination shall be conducted in the English language, and shall be, in whole or in part, in writing, and shall be on the following subjects, to wit: Anatomy, physiology, bacteriology, pathology, chemistry and toxicology, surgery, obstetrics, materia medica and therapeutics, and theory and practice of medicine. When the applicant applies for examination in materia medica and therapeutics, and theory and practice of medicine, he shall designate in what school of medicine he desires to practice and only the member or members of the Board who belong to the school so designated shall participate in this part of the examination. Examinations shall be practical in character, and designed to discover the applicant's fitness to practice medicine and surgery.

Examinations in each subject shall consist of not less than ten questions; answers to which shall be marked upon a scale of one to ten. If an applicant fails in his first examination, he may, after not less than six months, be re-examined. If he fail in a second examination, he shall not thereafter be entitled to another examination in less than one year after date of second examination, and shall be required to pay for such examinations the full fee. The examination papers shall form a part of the records of said Board, and shall be kept on file by the secretary. In said examination the applicant shall be known and designated by number only, and the name attached to the number shall be kept secret by the secretary until after the Board has finally voted on the application. The secretary of the Board of Medical Examiners shall in no instance participate, as an examiner, in any examination held by the Board; nor shall he be entitled to vote upon the question of granting any certificate to practice medicine or surgery.

Said Board may, in its discretion, accept and register, upon payment of the registration fee, and without examination of the applicant, any certificate which shall have been issued to him by the medical examining Board of the District of Columbia, or of any state or territory of the United States; provided, however, that the legal requirements of such Medical Examining Board shall have been, at the time of issuing such certificate, in no degree or particular less than those of California at the time when such certificate shall be presented for registration to the Board created by this act; and, provided further, that the provisions in this paragraph contained shall be held to apply only to such of said Medical Examining Boards as accept and register the certificates granted by this Board without examination by them of the ones holding such certificates. Each applicant, on making application, shall pay to the secretary of the Board a fee of twenty (\$20) dollars, which shall be paid to the treasurer of said Board by said secretary.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

COLORADO.

CAPITAL, DENVER.

Population of State, 539,700.

(U. S. Census of 1900.)

Number of Physicians, 1,265.

Colorado was organized as a territory February 28, 1861, and admitted as state August 1, 1876. The total land surface of Colorado is, approximate 103,645 square miles. The average number of persons to the square mile, shown by the census of 1890, was 3.9, and in 1900, 5.2.

Colorado had, in 1860, a population of 34,277, and in 1870 a population 39,864, but in 1880, the first census taken after its admission as a state, it had grown to 194,327, representing an increase in ten years of 154,463, or 387.4 per cent. During the decade from 1880 to 1890, its population was again increased 112.1 per cent, giving a total in 1890 of 412,198. The population of Colorado 1900, which was 539,700, is nearly sixteen times as large as the population given for 1860, the first year in which its population is given in the census report. It is the fifth state in area and thirty-first in population.

It extends from 37 degrees to 41½ degrees north latitude and from 101 degrees to 109 degrees west longitude, and is bounded on the north by Wyoming and Nebraska, on the east by Nebraska and Kansas, on the south by New Mexico and the Indian territory, and on the west by Utah. It is the third largest state in the Union, ranking after Texas and California, and comprising an area of 104,500 square miles, or 66,860,000 acres. The main range of the Rocky Mountains runs through the center of the state and forms the "Continental Divide." From one side the streams flow into the Gulf of Mexico, and from the other into the Pacific ocean.

The principal rivers are the South Platte and Arkansas, and these with the tributaries suffice to irrigate all the farm lands in the great agricultural country of the state.

The climate resembles that of the Eastern states in the same latitude, except that the air is much drier and the range of temperature between the extremes is much smaller. Rain falls almost exclusively from May to July, the other months are dry. Frost appears about the middle of September and continues until the opening of spring, which generally occurs a month earlier than in the East.

The vital statistics division of the Census Bureau reports that there was a decrease of nearly 10 per cent (1.8 per 1,000 population) in the general death rate in the registration area during the decade since 1890. "In 1890 the death rate

MEDICAL LAWS OF COLORADO.

The laws regulating medical practice in Colorado are essentially as follows:

Those physicians holding diplomas from recognized reputable medical schools are registered upon the presentation of diplomas or other sufficient evidence of graduation; fee, \$5.00.

All applicants graduating after January 1st, 1900, must have had four full courses—in four separate years—in medical colleges having adopted the standard of requirements equal to those of the A. A. M. C.

A doctor presenting to the secretary a diploma or evidence of graduation from a recognized medical school, and filing his affidavit thereof, is granted a temporary license to practice medicine and surgery in the State until the following Board meeting, when action is taken upon his application for a permanent license.

Other physicians and undergraduates applying for licenses are examined in anatomy, chemistry, physiology, pathology, surgery, practice of medicine, obstetrics and diseases of women. Fee, \$10.00. Examinations at regular sessions only—the first Tuesdays in January, April, July and October.

Only residents of Colorado are registered, but it is not necessary that an applicant for a license appear in person. In such case the affidavit and diploma have to be sent to the secretary for inspection and filing. The affidavit must be acknowledged either before the secretary of the Board or a Colorado notary public; otherwise it must be accompanied by proof of residence in Colorado. Address, S. D. Van Meter, M. D., secretary Board of Medical Examiners, 1723 Tremont st., Denver.

HYGROSCOPIC
ANTISEPTIC

ANTIPHLOGISTINE

EXOSMOTIC
ENDOSMOTIC

Warm, then spread on the skin an eighth of an inch thick over the inflamed part, cover with absorbent cotton and a compress. In from 12 to 36 hours it will peel off nicely like the peel from a banana.

ANTIPHLOGISTINE is extensively and successfully used for

PNEUMONIA	SPRAINS	BRONCHITIS	SYNOVITIS
PLEURISY	BRUISES	ERYSIPELAS	FELONS
INFLAMED GLANDS	BOILS	PERIOSTITIS	CHRONIC ULCERS

And for most cases where inflammation or Congestion is present and a local medicine is indicated. Where pus is present, evacuate, then apply Antiphlogistine.

Antiphlogistine hugs the skin closely.

Antiphlogistine maintains a uniform degree of temperature continuously for 12 to 24 hours or more.

"**Antiphlogistine** reaches down into the tissues and draws out serum"—a veritable process of white bleeding.

Antiphlogistine produces a feeling of relief, comfort and drowsiness, due to the relief of congestion and pain.

Put up in air-tight, yet easily opened packages—Small, 50 cts.; Medium, 75 cts.; Large, \$1.25.

A request with 25 cents for carriage entitles you to a free sample pound package. Try it.

CONNECTICUT.

CAPITAL. HARTFORD.

Population of State, 908,355.

(U. S. Census of 1900.)

Number of Physicians, 1,365.

Connecticut, one of the original thirteen states, extends from 41 degrees to 42 degrees 2¾ minutes N. latitude, and from 70 degrees 55 minutes to 73 degrees 50 minutes W. longitude, and is bounded on the north by Massachusetts, on the east by Rhode Island, on the west by New York, and on the south by Long Island Sound. It comprises an area of 4,730 square miles, or 3,027,200 acres.

The climate is marked by great extremes and sudden changes; the winters are cold, the summers very warm. The district bordering on the sound is the hottest and the northwestern portion the coldest. The mean annual temperature, as observed at the capital, is about 50 degrees, and the rainfall varies from 41 to 47 inches, according to the place of observation.

The following table shows the increase in the population for one hundred years:

1800.....	251,002	1860..	460,187
1810..	261,942	1870.....	537,454
1820..	275,148	1880.....	662,700
1830..	297,675	1890.....	746,258
1840.....	309,978	1900..	908,355

SYNOPSIS OF THE MEDICAL LAWS.

According to the act approved May 25, 1893, the State Board of Health was empowered to appoint three Examining Committees on the nominations of the Connecticut Medical Society, the Connecticut Homoeopathic Medical Society and the Connecticut Eclectic Medical Association respectively and to designate when and where said committees should hold examinations. Since 1897 all applicants to practice medicine or surgery must be examined in anatomy, physiology, medical chemistry, obstetrics, hygiene, surgery, pathology, diagnosis and therapeutics, including practice and materia medica. Each committee shall frame its own questions and conduct its examination in writing and both questions and answers are filed with the State Board of Health. Each applicant shall have the right to choose which of the three committees shall be the one by whom he shall be examined, but before taking such examination he shall pay to the Committee their expenses, not exceeding \$10. An applicant, after being rejected by any of said Examining Committees shall not be eligible to examination by another Committee of Examination until after the expiration of twelve months.—Journal of the American Medical Association.

In 1901 the law was amended as follows:

Be it enacted by the Senate and House of Representatives in General Assembly convened:

Section 1. Section eight of chapter CLVIII of the Public Acts of 1893 is hereby amended to read as follows: The said examining committees shall hold three regular examinations in each year, as follows: one on the second Tuesday of March, one on the second Tuesday of July, and one on the second Tuesday of November, at such places as they may designate, and such additional meetings and at such places as they shall determine. Applicants to practice medicine or surgery shall be examined in anatomy, physiology, medical chemistry, obstetrics, hygiene, surgery, pathology, diagnosis, and therapeutics, including practice and materia medica. Each committee shall frame its own questions and conduct its examinations in writing, and both questions and answers shall be placed on file with the State Board of Health. Each applicant shall have the right to choose which of the three Committees shall be the one by whom he shall be examined; but before taking such examination he shall pay to the Committee the sum of fifteen dollars, provided, however, that the fee for examination in midwifery alone shall be ten dollars. An applicant, after having been rejected by any of said Examining Committees, shall not be eligible to examination by another Committee of Examination until after the expiration of twelve months.

Sec. 2. Section one of chapter CLXXXVII of the Public Acts of 1897 is hereby amended by adding at the end of the section the following: "And no person shall be eligible to said examination until he presents evidence to the Examining Committee by whom he is to be examined, satisfactory to said committee, that he has received a diploma from some legally incorporated medical college," so that it shall read as follows: No person, after the passage of this act, shall obtain or receive a certificate of registration as required by the provisions of chapter CLVIII of the Public Acts of 1893, until he has passed a satisfactory examination before one of the Examining Committees appointed for the purpose under the provisions of said act, nor until he has complied with the other requirements of said act; and no person shall be eligible to said examination until he presents evidence to the Examining Committee by whom he is to be examined, satisfactory to said committee, that he has received a diploma from some legally incorporated medical college.

Sec. 3. The secretary of the State Board of Health, upon the written request of all of the members of any one of the Examining Committees provided for by chapter CLVIII of the Public Acts of 1893, shall have authority to revoke and cancel the certificate of registration of any person convicted of any crime in the practice of his professional business, or convicted of a felony, provided, however, that no one of the Examining Committees shall have the right to request the revocation and cancellation of a certificate granted upon the examination of any one of the other Examining Committees.

Approved June 11, 1901.

CAUTION.

Beware of so called Medical Directories, plagiarized from R. L. Polk & Co's Medical and Surgical Register of the U. S. and Canada, in violation of the copyright laws.

We have positive proof that some of the so-called State Medical directories issued since August, 1900, were copied from our 1900 Register and palmed off as new and original works.

THE FARMINGTON VALLEY...

SANA- TORIUM

The Farmington Valley Sanatorium is situated in Collinsville, Conn., one of the most picturesque localities in the State.

The building is large and commodious, with broad verandas, from which one obtains charming views of the Farmington Valley and its river, winding through the grounds that consist of fifty acres of land, with twenty acres of old forest traversed by foot-paths and driveways. The surrounding views and drives are unsurpassed. The air is dry and invigorating, the pure water from the hillside springs is abundant in supply, while fresh vegetables and fruits, and butter and eggs are supplied from the place; so that, together with good market facilities, there is easily supplied a wholesome variety of food for the table. Altogether, this is a most beautiful, quiet and invigorating place for wornout nerves and overwrought brains.

Dr. P. D. Peltier, the proprietor, has practised for thirty years in the city of Hartford, Conn., where he is well and favorably known.

All cases coming to the Sanatorium for treatment are individualized and each patient will receive the treatment which, by skill and experience, has proved the most efficacious.

CURES ECZEMA.

The waters of the Neapog Springs, situated a short distance from the Farmington Valley Sanatorium, have been justly celebrated for *over a century* for the cure of *eczema and other kindred skin diseases*. The many cures made have been permanent and absolute, and when the water is properly used it requires only a short time, comparatively, to effect a cure, from one to three months' treatment being all that is necessary in most cases. These waters are used at the Sanatorium under the direction of the resident physician.

WALNUT LODGE HOSPITAL

HARTFORD, CONN.

Organized in 1830 as a Private Hospital for the Special Cure and Treatment of Alcohol and Opium Inebriates. This institution is based on the modern view that **Inebriety** is a **Disease**, and **Curable**, and that the best results are obtained in the treatment of these cases in small hospitals, where each case can receive the individual care of the physician.

This Institution is finely situated on the outskirts of the city, and the rooms are all large, heated with steam, and lighted with gas, and arranged for comfort, so that each one can have all the advantages of a large asylum with the quiet and privacy of a home. The treatment comprises the use of every means which science and experience have found to be of value in building up the brain and nervous system, and includes

TURKISH, ROMAN, ELECTRICAL AND SALINE BATHS.

Experience shows that a large proportion of cases who come for treatment, and earnestly use all the means provided, are permanently restored. Each case is treated individually, and the special care and restraint is adapted to the needs of each one. Only a limited number of cases are received, and every patient is under the direct, personal care of an attendant and the physician.

Applications for admission, and all letters of inquiry, should be addressed

GRAND VIEW SANITARIUM

SOUTH WINDHAM, CONN.

A private Sanitarium for the scientific treatment of **nervous and mild mental diseases** with separate department for alcoholic and drug addictions.

GRAND VIEW SANITARIUM is situated on the southeast side of Obwebe-tuck Mountain in the heart of South Windham's beautiful environments. The rooms of the building all command a wonderful and picturesque view, overlooking a wide expanse of country for miles around. The sanitarium is heated by steam throughout, lighted by gas, has electric calls in each room and is supplied with the purest water taken from the side of the mountain through iron pipes. The sanitarium is well and carefully piped and strict attention has been given to sewerage. Having a natural advantage in this direction, a most complete system has been adapted and carried out. The pure dry mountain air of this locality is specially beneficial to persons suffering from pulmonary, catarrhal or bronchial troubles. The nights are cool and Malaria and Mosquitoes are unknown. The scenery is unsurpassed, combining both mountain and river views, and there are romantic walks and delightful drives in every direction.

BATHS. Among the special features employed at this sanitarium for the treatment of various diseases, are the baths, occupying over *three thousand square feet*. These are the **TURKISH, RUSSIAN, ROMAN, NEEDLE, DOUCHE, ELECTRIC and PLUNGE BATHS**, administered by the most skillful and attentive operators. The Baths are most elegantly furnished, affording every comfort and luxury to the patient.

GYMNASIUM. A large gymnasium connects the *Turkish Bath House* with the main building and is fully equipped with all the necessary appurtenances, including rowing machines, swings, wood and iron dumb bells, chest weights, horizontal bars, Indian clubs, striking bags, sparring gloves, and various other appliances that go to make up a first-class exercising room.

The above baths, as well as regular exercise, both outdoor and gymnasium work, are absolutely necessary to promote rapid recovery of the patient.

HARTFORD, CONN.

THIS Institution, established in 1890, is a Private Hospital, specially designed for the treatment of surgical cases (including orthopedic and abdominal) and chronic diseases. No contagious cases or insane patients admitted.

It is pleasantly located in the suburb of the city and is easily accessible by electric cars.

Patients will find all the comforts, and if desired, the luxuries of home, combined with the advantages of trained nurses, and personal care of the Resident Surgeon.

SPECIAL FEATURES :

ABDOMINAL. Appendicitis, radical cure of hernia, intestinal obstructions and anastomosis, operations on the gall bladder and bile ducts.

ORTHOPEDIC. All the latest and most approved appliances for the treatment of malformations and deformities.

GENITO-URINARY. Strictures, acute and chronic inflammation of the bladder, removal of stone, and surgical diseases of the kidneys, with instruments for obtaining the urine from each kidney separately.

RECTAL. Special attention given to the treatment of hemorrhoids, fistula in ano, and all diseases of the rectum; also the sigmoidoscope, for the diagnosis and treatment of the diseases of the sigmoid flexure.

A special department, favorably located, is to be added for the treatment of pulmonary tuberculosis by a new and successful method.

ELECTRO THERAPEUTICS. A complete outfit for electrical treatment in all its branches.

For illustrated descriptive catalogue, terms, etc., address

MEDICAL LAWS OF DELAWARE.

AN ACT REGULATING THE PRACTICE OF MEDICINE AND SURGERY IN THIS STATE.

Whereas, the safety of the public may be endangered by incompetent physicians and surgeons, and due regard for public health and the preservation of human life demands that none but competent and properly qualified physicians and surgeons shall be allowed to practice their profession; therefore,

Be it enacted by the Senate and House of Representatives of the State of Delaware in General Assembly met:

Section 1. That there shall be established a Medical Council of Delaware, consisting of the Chief Justice of the State, and of the presidents of the two State boards of medical examiners, provided for in this act.

Sec. 2. The said council shall be known by the name and style of the "Medical Council of Delaware," and may make and adopt all necessary rules, regulations and by-laws for their own government, not inconsistent with the laws of this State or of the United States, and shall have power to locate and maintain an office within this State for the transaction of business. Two members of said council shall constitute a quorum for the transaction of business.

Sec. 3. The said council shall organize within ten days from the date of the organization of the two boards of medical examiners, and shall elect from its own number a president and a secretary, who shall also act as treasurer, both of whom shall hold their offices for one year, or until their successors are chosen.

Sec. 4. The members of said council shall receive, in addition to their necessary expenses, five dollars per day each for each meeting of the council, but said per diem shall not exceed in any one year more than fifteen dollars, the same to be paid out of the fees hereinafter provided for.

Sec. 5. The said Medical Council shall hold two stated meetings in each year, and may hold special meetings at such times as it may deem proper. It shall issue certificates for license to practice medicine and surgery, to such applicants as have presented such diplomas as hereinafter required and successfully passed the examination hereinafter provided, and the said Medical Council shall have no powers, duties or functions except as provided for in this act.

Sec. 6. That from and after the passage of this act, there shall be, and continue to be, two separate boards of medical examiners for the State of Delaware, one representing "The President and Fellows of the Medical Society of Delaware," and the other "The Homœopathic Medical Society of Delaware and Peninsula."

Each board shall consist of five members, and each of said members shall serve for a term of two years, from the first day of March next after appointment, with the exception of those first appointed, who shall serve as follows, namely: Two of each board for one year, and three of each board for two years, from the first day of March, A. D. 1895.

The Governor shall appoint the members of said boards of examiners respectively, from the lists of members submitted by said medical societies residing in this State, which lists shall within ten days from the passage of this act, and on or before the first day of every January thereafter, be transmitted to the Governor under the seal, and signed by the secretary of the society so nominating.

From these lists of nominees respectively, the Governor shall, within ten days after the receipt thereof, appoint two separate boards of medical examiners, each board to be composed exclusively of members of the same medical society. In case of the failure of either of the said societies to submit lists as aforesaid, the Governor shall appoint members in good standing of the corresponding society, entitled to nominate without other restrictions.

Each one of the said appointees must be a registered physician in good standing, and shall have practiced medicine or surgery under the laws of this State for a period of not less than five years prior to such appointment.

The Governor shall fill vacancies by death or otherwise for unexpired terms of said examiners, from the lists submitted as aforesaid, and may remove any members of either of said boards for continued neglect of the duties required by this act, or on recommendation of the medical society of which said member may be in affiliation, for unprofessional or dishonorable conduct.

The Governor shall in his first appointments designate the number of years for which each appointee shall serve.

The appointments of successors to those members whose term of office will expire on the first day of March of each year, shall be made by the Governor during the first ten days of January of such year, upon the same conditions and requirements as hereinbefore specified with reference to the appointment of two separate examining boards, each to be composed exclusively of members of the same medical society as hereinbefore provided.

Sec. 7. Said boards shall be known by the name and style of "Boards of Medical Examiners of the State of Delaware." Every person who shall be appointed to serve on either of said boards shall receive a certificate of appointment from the secretary of State under his hand. Each of said boards of examiners shall make and adopt all necessary rules, regulations and by-laws not inconsistent with the laws of this State or of the United States, whereby to perform the duties and transact the business required under the provisions of this act.

Sec. 8. From the fees provided by this act the Medical Council shall pay, not to exceed said income, all proper expenses incurred by its provisions, and if any surplus above said expenses shall remain at the end of any year, it shall be apportioned among said medical societies pro rata according to the number of candidates examined by each.

Sec. 9. The first meeting of each of the examining boards respectively shall be held on the first Tuesday of July, 1895. At such meeting of each of the boards respectively an organization shall be effected by the election from their own membership of a president and secretary for the purpose of examining applicants for certificates for license. Each of said boards of medical examiners shall hold two or more stated or special meetings in each year, due notice of which shall be made public at such times and places as they may determine. At said stated or special meetings a majority of the members of either board shall constitute a quorum thereof, but the examinations may be conducted by a committee duly authorized by said boards.

Sec. 10. Each board of medical examiners not less than one week prior to each examination shall submit to the Medical Council of Delaware questions for thorough examinations in anatomy, physiology, hygiene, chemistry, surgery, obstetrics, pathology, diagnosis, therapeutics, practice of medicine and materia medica.

The Medical Council shall select the questions for such examinations from the lists of questions submitted by the board of medical examiners of the candidate's election; and should there be candidates for examination of any other school than the two designated in this act, they shall be examined by the council and some reputable practitioner in this State of such school by said council to be selected, upon questions selected from standard text books, on the above subjects, as taught by the school selected by the candidate.

Sec. 11. Said examination shall be conducted in writing in accordance with the rules and regulations prescribed by the respective boards of medical examiners, and shall embrace the subjects named in section 10 of this act. After each examination the board of medical examiners having charge thereof shall, without unnecessary delay, act on the same. An official report of such action, signed by the president, secretary and each acting member of said board of medical examiners, stating the result of examination, shall be transmitted to the Medical Council.

Sec. 12. On receiving from either of said boards of medical examiners such official report of the examination of any applicant for certificate for license, the Medical Council shall issue forthwith to each applicant who shall have been returned as having successfully passed the examination, a certificate to that effect.

The Medical Council shall keep a record of all certificates, when and to whom issued.

Sec. 13. From and after the passage of this act, any person not heretofore authorized to practice medicine and surgery in this State, and desiring to enter upon such practice, shall deliver to the secretary of the Medical Council, upon the payment of a fee of ten (\$10) dollars, a written application for examination, together with satisfactory proof that the applicant is more than twenty-one years of age, is of good moral character, has obtained a competent common school education, and has received a diploma conferring the degree of medicine from some legally incorporated medical college. Applicants who have received their degree in medicine after the passage of this act, must have pursued the study of medicine for at least four years, including three regular courses of lectures in different years, in some legally incorporated medical college or colleges prior to the granting of said diploma. Such proof, if required, shall be made upon affidavit. Upon making of said payment and proof, the Medical Council shall issue to said applicant an order for examination before such one of the State boards of medical examiners as the applicant for certificate may select. In case of failure at any such examination, the candidate, after the expiration of six months and within two years, shall have the privilege of a second examination by the same board to which application was first made, without the payment of an additional fee, but if after six months and before two years from such examination said application shall be withdrawn, the said \$10 shall upon demand be returned.

Sec. 14. That from and after the passage of this act it shall not be lawful for any person to practice medicine or surgery in this State without having obtained a license therefor as hereinafter provided.

Sec. 15. The Clerk of the Peace of any of the counties of this State shall issue a license signed by the Governor and countersigned by the Secretary of State and sealed with the seal of his office, certifying that such person is authorized to practice medicine and surgery in this State, conformably to the laws thereof, to any person who shall

present to him a certificate as provided in this act, or who shall have been qualified in one of the counties of this State prior to the passage of this act, and to no other person.

Sec. 16. The provisions of this act shall not apply to physicians who are practitioners of any other State coming into this State in consultation with any lawful practitioner of medicine and surgery in this State.

Sec. 17. Any person practicing or attempting to practice medicine or surgery within this State contrary to the provisions of this act shall be guilty of a misdemeanor and upon conviction thereof in the Court of General Sessions of the Peace and Jail Delivery of the county wherein the offense was committed, shall pay a fine of not more than five hundred (\$500) nor less than one hundred (\$100) dollars, or be imprisoned for a term of not more than one year.

Sec. 18. That this act shall not in any way apply to dentists or to dental surgery.

Sec. 19. All other acts or parts of acts regulating the practice of medicine in this State are hereby repealed; but nothing herein contained shall in any way interfere with the operation of chapter 117, volume 13, laws of Delaware, relating to revenue.

Passed at Dover, April 18, 1895.

A SUPPLEMENT TO AN ACT ENTITLED "AN ACT REGULATING THE PRACTICE OF MEDICINE AND SURGERY IN THIS STATE," PASSED AT DOVER, APRIL 18, 1895.

Be it enacted by the Senate and House of Representatives of the State of Delaware, in General Assembly met:

Section 1. That the Medical Council of Delaware may refuse to issue a certificate for a license to practice medicine and surgery or may revoke a certificate issued for a license to practice medicine or surgery for the following causes, to wit: Chronic and persistent inebriety, the practice of criminal abortion; conviction of a crime involving moral turpitude or for publicly advertising special ability to treat or cure chronic incurable diseases, or where any person shall present to the said Medical Council any diploma, license or certificate that shall have been illegally obtained or that shall have been signed or issued unlawfully or under fraudulent representation; in complaints for violating the provisions of this section the accused person shall be furnished with a copy of the complaint and given a hearing before the said Medical Council in person or by attorney.

Sec. 2. That applicants examined and licensed by or who are or have been members of state examining and licensing boards of other States upon the payment of fifty dollars to the treasurer of the Medical Council of Delaware, and on filing with the secretary of said Medical Council a copy of his or her license or certificate certified to by the affidavit of the president and secretary of such board, showing also that the standard of requirements of the said board at the time the said license or certificate was issued, was substantially the same as that required by the said Medical Council of Delaware, and of his or her affidavit as to the personality thereof, may be granted a certificate for a license to practice medicine and surgery by the said Medical Council, upon the recommendation of the said boards of medical examiners without further examinations thereby.

Section 3. That the state treasurer shall pay the sum of three hundred dollars per annum, in quarterly payments of seventy-five dollars each, to the treasurer of the Medical Council of Delaware, who shall apportion and pay the same to the members of the said boards for their necessary expenses, and in addition five dollars per day each for each member for every meeting attended, but said per diem shall not exceed in any one year more than twenty-five dollars.

The instruction in the school is given by lectures, recitations, laboratory and clinical work. The new Hospital and new Medical School Buildings, which will be completed by October, 1902, are but a few steps from the different lines of cars, which give direct and quick communication with all the other hospitals of the city, as well as libraries and public buildings.

The hours for the lectures are so arranged that the students have every opportunity to make use of the clinical and library advantages, especially the world-renowned Army Medical Museum and Library and other advantages that Washington offers.

For announcement and further information, address

THE MEDICAL SCHOOL of Georgetown University

IN THE CITY OF WASHINGTON.

The demands of modern medical education are such that the Faculty has found it necessary to extend the hours of instruction; the 53rd session will begin, therefore, October 1, 1902, and continue throughout the day for eight months.

A large corps of teachers in proportion to the number of students make instruction more directly personal and adapted to the special needs of the individual. The clinical facilities of the University Hospital and other City and Government Hospitals are ample and the laboratories are well equipped.

Special attention is called to the educational advantages of the National Capital, with its unrivalled libraries, the Army Medical Museum, the Museum of Hygiene and the United States National Museum and the various scientific laboratories which are open to students.

SUMMARY OF LAWS AND RULES REGULATING THE PRACTICE OF MEDICINE AND MIDWIFERY IN THE DISTRICT OF COLUMBIA.

1. RESTRICTIONS.

No person can lawfully practice medicine in the District of Columbia unless licensed to do so by the board of medical supervisors.

Exceptions.—The above restriction does not apply in the following cases:

First—To commissioned surgeons of the United States army, navy and the marine hospital service.

Second—To regularly licensed physicians and surgeons in actual consultation from States or Territories.

Third—To regularly licensed physicians and surgeons called from States or Territories to attend specified cases in the District of Columbia.

Fourth—To the treatment of cases of actual emergency.

Fifth—To the practice of massage or the so-called "Swedish Movement Cure."

Sixth—To the use of ordinary domestic remedies without fee, gift or consideration.

2. LICENSING BOARDS, ETC.

The board of medical supervisors issues and, in proper cases, revokes licenses to practice medicine and to practice midwifery, and supervises all examinations. It is made up of three physicians and two laymen. The three physicians are members of the board of medical supervisors by reason of election to the presidencies of the three boards of medical examiners. The laymen, one of whom must be a lawyer, are appointed members of the board by the commissioners of the District of Columbia.

The board of medical examiners, the board of homeopathic medical examiners and the board of eclectic medical examiners conduct all examinations, under the direction of the board of medical supervisors. Each examining board is made up of five physicians appointed by the commissioners of the District of Columbia. Each board elects a president, and he is, ex-officio, a member of the board of medical supervisors.

The board of examiners in midwifery is made up of three physicians appointed from time to time by the board of medical supervisors.

3. LICENSES.

Licenses to practice medicine and surgery are issued in three series, as follows:

Series A—To physicians exempted from examination by reason of registration at the Health Office of the District of Columbia prior to the enactment of the law now in force, that is, prior to June 3, 1896.

Series B—To physicians exempted from examination by reason of licenses issued by States and Territories maintaining reciprocal relations with the District of Columbia in the matter of licenses to practice medicine.

Series C—To physicians belonging to neither of the foregoing classes, who can obtain licenses only after examination.

Licenses to practice midwifery are issued in two series:

Series A—To midwives exempted from examination by reason of registration at the Health Office of the District of Columbia prior to the enactment of the law now in force, that is, June 3, 1896.

Series C—To midwives who can obtain licenses only after examination.

All licenses whatsoever must be recorded with the Clerk of the Supreme Court of the District of Columbia and registered at the Health Department of said District before the licensee can begin practice lawfully.

Licenses of all kinds may be refused or revoked by the board of medical supervisors for cause.

4. RECIPROCITY.

Physicians duly licensed by state and territorial boards of medical examiners can, upon changing their residences to the District of Columbia, obtain licenses to practice medicine and surgery therein, without fee and without examination, if the states and territories by which their licenses were issued grant equal privileges to licensees of the Board of Medical Supervisors of the District of Columbia.

5. APPLICATIONS.

All applications must be made on forms provided by the Board of Medical Supervisors. Applications for licenses to practice medicine which involve the examination of the applicant must be filed with the secretary of the Board of Medical Supervisors not less than two weeks prior to the examination at which the applicant desires to appear, and must be accompanied by a fee of ten dollars. Applications for all other forms of licenses, including those to practice midwifery, are made without the payment of fee.

6. QUALIFICATIONS OF APPLICANTS.

For qualifications of applicants for licenses to practice medicine other than Series C, see paragraph 3.

Applicants for licenses to practice medicine who must submit to examination must furnish, with their application, proof of good moral character and of being more than twenty-one years of age. They must present with such application a diploma conferring the degree of Doctor of Medicine, issued by some college authorized by law to confer such degree, and, if such diploma was issued on or before June 30, 1898, must furnish evidence of at least three years' study of medicine and surgery prior to the issue thereof; or, if such diploma was issued subsequent to that date, they must furnish evidence of having studied medicine not less than four years prior to the date of the diploma submitted.

Women asking, through examination, licenses to practice midwifery must be able to read and write, and must furnish with their applications satisfactory evidence of good moral character; of being not less than twenty-one years of age; and of being either graduated trained nurses, or of having been regularly engaged as an obstetric nurse for not less than two years, and in either case of having been in regular attendance in their capacity as nurses upon not less than five cases of confinement under the care of physicians.

7. EXAMINATIONS.

Examinations of applicants for licenses to practice medicine are held regularly, commencing on the second Thursdays of January, April, July and October. Each examination is written and oral, and lasts not less than four days. The examination covers anatomy, physiology, chemistry, pathology, materia medica and therapeutics, hygiene, histology, practice of medicine, surgery, obstetrics and gynecology, diseases of the eye and the ear, medical jurisprudence, toxicology, and bacteriology. The Board of Medical Supervisors has authority to add other branches. Examinations in the branches above mentioned are divided into eight sections. In marking, the written examination counts seventy-five and the oral examination twenty-five, on a scale of one hundred. An applicant must attain an average of not less than fifty per cent in every section and a general average of not less than seventy-five per cent in order to be entitled to a license. An applicant having a general average of seventy-five per cent or more, but an average in one section of less than fifty per cent, may be given an immediate re-examination in that section, provided his average in it is not less than thirty-three and a third per cent. If, however, his average is less than thirty-three and a third per cent, or if he has attained an average of less than fifty per cent in more than one section, no license will be issued, no matter what the general average may be.

Examinations of applicants for licenses to practice midwifery are held regularly, commencing on the second Thursdays in January and July. They are oral and cover the following subjects:

1. The management of normal labor.
2. The care of the mother and child during an uncomplicated puerperal period.
3. The recognition before confinement of pathological conditions of the mother which are likely to complicate labor, and during labor and the puerperal period, of pathological conditions of both mother and child, and the duties of midwives with reference to such conditions.

An applicant, in order to secure a license, must attain a general average of not less than seventy-five per cent.

THE MEDICAL SCHOOL — OF — Georgetown University IN THE CITY OF WASHINGTON.

The demands of modern medical education are such that the Faculty has found it necessary to extend the hours of instruction; the 53rd session will begin, therefore, October 1, 1902, and continue throughout the day for eight months.

A large corps of teachers in proportion to the number of students makes instruction more directly personal and adapted to the special needs of the individual. The clinical facilities of the University Hospital and other City and Government Hospitals are ample and the laboratories are well equipped.

Special attention is called to the educational advantages of the National Capital, with its unrivalled libraries, the Army Medical Museum, the Museum of Hygiene and the United States National Museum and the various Scientific laboratories which are open to students.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

Dear Doctor:--What would you prescribe for my case?

FLORIDA.

CAPITAL, TALLAHASSEE.

Population of State, 528,542.

(U. S. Census of 1900.)

Number of Physicians, 695.

Florida is the extreme southeastern state of the Union, and is bounded on the north by Alabama and Georgia, east by the Atlantic ocean and south and west by the gulf of Mexico and Alabama. It includes the peninsula of Florida, which extends from its northern boundary 350 miles in a southeasterly direction between the Atlantic and gulf and west Florida, a narrow region extending along the gulf to the Perdido river. The peninsula has a nearly uniform width of a little more than 100 miles and extends from 25 degrees to 30 degrees north latitude. The climate of Florida approximates to that of the inter-tropical regions generally. The average summer temperature is 80 degrees, the winter 65 degrees, rising at Key West to 70 degrees. Along the coast the heat is tempered by the sea breezes, and the winters are so genial that the state has long been the resort of thousands desiring to escape the rigors of the northern winter. The most handsomely appointed winter resort hotels in the world are located here. The annual rainfall averages 55 inches. Three-fourths of this falls between April and October, which is the rainy season. The surface of the state is generally level, slightly undulating, no part rising to an elevation of more than 250 feet above the sea level. The

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

southern portion is generally level and swampy, a great portion of which is broken by the Everglades, a vast swampy field of coarse grass and aquatic plants lying south of Lake Okechobee. The Atlantic and gulf coasts are covered by forests of cypress, live oak and cedar on the lowlands and pine on the sand ridges. That portion lying north of latitude 28 degrees is generally undulating and wooded. The vegetation is of the richest and most varied character and the flowers and fruits of both the temperate and tropical zones grow in the utmost profusion.

Florida comprises an area of 59,268 square miles, or 37,931,520 acres. The following table shows increase in population for fifty years:

1850.....	87,455	1880.....	269,493
1860.....	140,424	1890.....	391,422
1870.....	187,748	1900.....	528,542

Florida is famous for the number, size and variety of its mineral springs. There were 9,610 births, 6,493 marriages, and 5,949 deaths in Florida during 1900. The population of the state is 528,542, which gives a birth rate of 17.99 and a death rate of 11.24 per 1,000.

MEDICAL LAWS OF FLORIDA.

There are nine Boards of Medical Examiners, one representing each of the seven judicial districts, one the Homeopaths and one the Eclectics.

CHAPTER 4419—1895.

AN ACT TO AMEND SECTION 806, CHAPTER 4, REVISED STATUTES OF THE STATE OF FLORIDA.

Be it enacted by the Legislature of the State of Florida:

Section 1. That section 806, chapter 4, of the Revised Statutes of the State of Florida, be amended so as to read as follows:

Section 806. Examinations: It shall be the duty of said Board of Examiners to examine thoroughly every applicant for certificate of qualification to practice medicine in any of its branches or departments, upon the production of his medical diploma from a recognized college or in the event said applicant shall have lost his diploma, or the same shall have been destroyed prior to the year 1870, then upon satisfactory evidence to such board of such loss or destruction, upon the following subjects: Anatomy, physiology, gynecology, surgery, therapeutics, obstetrics and chemistry, but no preference shall be given to any school of medicine: Provided, That it shall be the duty of the Board of Homeopathic Medical Examiners to examine thoroughly every applicant for certificate of qualification to practice medicine in any of its branches or departments, upon the production of his diploma from a college recognized by the American Institute of Homeopathy, upon the following subjects: Anatomy, physiology, surgery, gynecology, materia medica, therapeutics, obstetrics and chemistry, and no preference shall be given to any school of medicine.

Approved May 17, 1895.

CHAPTER 4540—1897.

AN ACT TO PRESCRIBE THE MODE OF ISSUING TEMPORARY CERTIFICATES OF QUALIFICATION BY THE BOARDS OF MEDICAL EXAMINERS, DEFINING THE DUTIES OF THE MEMBERS AND SECRETARIES OF THE SAME, AND PRESCRIBING A PUNISHMENT FOR A BREACH THEREOF.

Be it enacted by the Legislature of the State of Florida:

Section 1. That any member of the several Boards of Medical Examiners in this State, shall be authorized to grant a temporary certificate of qualification to any applicant desiring to practice medicine in this State, upon examination, until the next regular meeting of the board: Provided, however, That the applicant has never before received a similar certificate from any member of the several boards. All temporary certificates shall cease to be of force at the regular meeting next after the granting of the same.

Sec. 2. It shall be the duty of the member granting a temporary certificate to notify the secretary of the board of which he is a member of his action, and it shall be the duty of the said secretary to notify the secretaries of the several other boards of the granting of said certificate.

Sec. 3. Any member or secretary of the said several boards who shall be found violating the provisions of this act, upon conviction thereof, shall be fined not more than one hundred dollars, or imprisoned for not more than sixty days, or by both such fine and imprisonment.

Sec. 4. That all laws or parts of laws in conflict with the provisions of this act, be and the same are hereby repealed.

Approved June 5, 1897.

CHAPTER 4697—1899.

AN ACT TO LICENSE PHYSICIANS, NOT GRADUATES, WHO HAVE PRACTICED MEDICINE SUCCESSFULLY FOR FIFTEEN YEARS OR MORE IN THE STATE OF FLORIDA.

Be it enacted by the Legislature of the State of Florida:

Section 1. That when any person has practiced medicine successfully and continuously for a period of fifteen years in the State of Florida, and is of good moral character, upon proof of these facts being made to the Board of Medical Examiners of the Judicial

Circuit of the State, where applicant resides, the said Board of Medical Examiners, upon the application of such physician, shall examine said applicant in any recognized school of practice that said applicant may elect to be examined in, and if such physician is found to be competent, the said Board of Medical Examiners shall issue to such applicant a certificate as is now provided for by law.

Sec. 2. All laws or parts of laws in conflict with this law are hereby repealed.

Sec. 3. This act to take effect after its passage and approval by the Governor.

Approved May 27, 1899.

CHAPTER 4698—1899.

AN ACT TO PROVIDE FOR A STATE BOARD OF MEDICAL EXAMINERS FOR THE ECLECTIC SCHOOL OF MEDICINE AND TO PRESCRIBE THE QUALIFICATIONS, DUTIES AND POWERS OF SAID BOARD.

Be it enacted by the Legislature of the State of Florida:

Section 1. The Governor shall appoint a Board of Eclectic Medical Examiners for the State at large; said Board shall be composed of three practicing Eclectic physicians of known ability, who shall be graduates of a college of the Eclectic School of Medicine.

Sec. 2. The said Board of Eclectic Medical Examiners shall be authorized to examine all applicants who shall present a certificate of graduation (showing that such applicant has taken not less than a two years' course), from some college of the Eclectic School of medicine, and shall not have authority to examine any applicant from any other school of medicine.

Sec. 3. The duties of the Board of Eclectic Medical Examiners, as to organization, time and place and meeting, and in all other respects, except as stated in this bill, shall be the same as the powers conferred by law on the Board of Homoeopathic Medical Examiners.

Sec. 4. All laws in conflict herewith are hereby repealed.

Approved May 4, 1899.

GEORGIA.

CAPITAL, ATLANTA.

Population of State, 2,216,331.

(U. S. Census of 1900.)

Number of Physicians, 2,861.

Named in honor of George II. of England, and one of the original thirteen states, extends from 30 degrees 21 minutes 40 seconds to 35 degrees north latitude and from 80 degrees 52 minutes to 85 degree 35 minutes 38 seconds west longitude, and is bounded on the north by Tennessee and North Carolina, on the east by South Carolina and the Atlantic Ocean, on the south by Florida and on the west by Alabama and Florida. The population of the State, according to the U. S. census of 1900, is 2,216,331, as against 1,837,353 in 1890, representing an increase since 1890 of 378,978, or 20.6 per cent.

The following table shows the increase in population since 1830:

1830.....	516,823	1870.....	1,184,109
1840... ..	691,392	1880.....	1,542,180
1850.....	906,185	1890.....	1,837,353
1860.....	1,057,286	1900.	2,216,331

The total land surface of Georgia is, approximately, 58,980 square miles, the average number of persons to the square mile at the census of 1890 and 1900 being as follows: 1890, 31.1; 1900, 37.5. Its maximum length from north to south is 320 miles and its breadth 254 miles, with 128 miles of coast line indented by numerous sounds and inlets, which separate a series of low, sandy islands from the main-land. The surface of the State presents a diversity of aspects from the low sandy beach, broad swamps and marshes, level plains covered with pine to gently undulating hills and lofty mountains. There is a decided contrast in temperature between the northern and southern portions of the State, due to the difference in height above the sea and the latitude. At Atlanta the mean annual temperature is 58.36 degrees and at Savannah 67.8 degrees. Agriculture is the most important branch of industry, while Georgia leads the Southern States in manufacturing, having valuable water power and important interests in the manufacture of textile stuffs, lumber, flour and in the smelting and manipulation of iron.

There are a number of mineral springs in the State.

MEDICAL LAWS OF GEORGIA.

AN ACT TO ESTABLISH BOARDS OF MEDICAL EXAMINERS FOR THE STATE OF GEORGIA, TO DEFINE THEIR DUTIES AND POWERS, TO PROTECT THE PEOPLE FROM ILLEGAL AND UNQUALIFIED PRACTITIONERS OF MEDICINE AND SURGERY, TO REGULATE THE ISSUING AND RECORDING OF LICENSES, TO PRESCRIBE PENALTIES FOR THE VIOLATION OF THIS ACT, AND FOR OTHER PURPOSES.

Section 1. Be it enacted by the General Assembly of Georgia, and it is hereby enacted by authority of the same, that within thirty days after the passage of this act, it shall be the duty of the Governor to appoint for this State three separate boards of medical examiners of five members each, as follows: One board to consist of five members of the regular school of medicine; one board of five members of the eclectic school of medicine; and one board of five members of the homeopathic school of medicine. The members of each of said boards shall be men learned in medicine and surgery, of good moral and professional character, and graduates of reputable medical colleges; but none of them shall be members of the faculty of any medical college. Each of said three boards shall be wholly independent of, and separate from, the other two in the performance of the duties herein required of each of said boards. A majority of each board shall constitute a quorum.

Sec. 2. Be it further enacted, that the term of office of said members shall be for the term of three years; provided, that two members of each board shall first be appointed for one year; two for two years; and one for three years; and subsequently each appointment shall be for the full term of three years. Any vacancy that may occur in said board, in consequence of death, resignation, removal from the State, or from other cause, shall be filled for the unexpired term by the Governor.

Sec. 3. Be it further enacted, that immediately, and before entering upon the duties of said office, the members of said Board of Medical Examiners shall take the following oath: "I do swear that I will faithfully perform the duties of a member of the Board of Medical Examiners for the State of Georgia to the best of my ability, so help me God," and shall file the same in the office of the Governor of the State, who, upon receiving the said oath of office, shall issue to each examiner a certificate of appointment.

Sec. 4. Be it further enacted, that immediately after the appointment and qualification of said members, each board shall meet and organize. The officers of said board shall be a president, vice-president, and secretary (who shall act as treasurer). Said officers shall be members of and elected by their respective boards. Each board shall hold two regular meetings in each year. One meeting shall be held at such time on or just before graduation day of each medical college now chartered, or that may hereafter be chartered, in this State, and the board of examiners, after consultation with the faculty of said college, shall fix a time for its meeting to suit a majority of the students graduating from said college; the other, on the second Tuesday in October. The first meeting shall be held in the city of Atlanta, and the succeeding meetings of each board may be held in such city as each board may determine for itself. Special meetings may be held upon the call of the president and two members of each board; but there shall not be less than two regular meetings in each year. Each board may prescribe rules, regulations and by-laws for its proceedings and government, and shall keep permanent record of its actions. And each board shall examine and pass upon the qualifications of applicants for the practice of medicine in the State, as herein prescribed.

Sec. 5. Be it further enacted, that it shall be the duty of each board, at any of its meetings, to examine only persons making application to it, who are graduates of an incorporated medical college, school or university that requires not less than three full courses of study of six months each, who shall desire to commence the practice of medicine or surgery in the State, and who shall not, by the provisions of this act, be exempt from such examination; but any person now matriculated as a student of medicine at any medical college, after graduation, and any person from another State who shall have graduated prior to April 1st, 1895, at a lawfully chartered medical college requiring only two full courses of study, shall be eligible for examination and license; provided, always, that the applicant for such examination shall hold a lawfully conferred diploma from an incorporated medical college which conforms to the system of practice represented by the board to which the application shall be made; unless the applicant desires to practice a different system from that recognized in his diploma then he shall appear before the board which represents the system that he proposes to practice. But in no event shall an applicant who stands rejected by one of said boards be examined or licensed by either of the other boards. If the applicant desires to practice a system not represented by any of the boards hereby established, he may elect for himself the board before which he will

appear for examination. When an applicant shall have passed an examination satisfactory as to proficiency before the board in session, the president thereof shall grant to such applicant a certificate to that effect. A fee of ten dollars shall be paid to such board through such officer or member as it may designate by each applicant before such examination is had. In case an applicant shall fail to pass a satisfactory examination before any board, he shall not be permitted to stand any further examination before any of the boards within the next three months thereafter; nor shall he again have to pay the fee prescribed aforesaid for any subsequent examination; provided, that when, in the opinion of the president of any board, any applicant has been prevented by good cause from appearing before said board, the president and two members of said board designated by him shall constitute a committee, who shall examine such applicant, and may, if they see fit, grant him a certificate which shall have the same force and effect as though granted by a full board, until the next regular meeting of the board, when, if the applicant fails to appear for examination, said certificate shall be void.

Sec. 6. Be it further enacted, that the fund raised from the fees aforesaid shall be applied by each examining board to the payment of its expenses and to making a reasonable compensation to the president, secretary and members thereof.

Sec. 7. Be it further enacted, that before any person who obtains a certificate from any board, or from a committee of any board, may lawfully practice medicine or surgery in this State, he shall cause the said certificate to be recorded in the office of the clerk of the superior court in the county in which he resides. But if he does not reside in the State of Georgia, he shall cause said certificate to be recorded in any county within this State in which he offers to practice. The certificate shall be recorded by the clerk in a book to be kept for that purpose. It shall be indexed in the name of the person to whom the certificate is granted. The clerk's fee for recording a certificate shall be the same as for recording a deed.

Sec. 8. Be it further enacted, that this act shall take effect from and after the first day of January, 1895, and that it shall be unlawful thereafter for any person to commence the practice of medicine or surgery in this State without complying with the provisions of this act. But nothing in this act shall apply to persons now lawfully engaged in the practice of medicine or surgery in the State of Georgia, to any commissioned medical officer or contract surgeon of the United States army or navy or marine hospital service, in the performance of their duties as such, nor to any physician or surgeon residing in any State or Territory of the United States, or in the District of Columbia, who may be bona fide called in consultation in a special case with a legally qualified physician or surgeon residing in this State; nor shall this act be construed as affecting or changing in any way laws in reference to license tax to be paid by physicians and surgeons; provided, that a non-resident physician or surgeon called in consultation in a special case, as above described, shall not be permitted to engage in continuous practice or consultation in connection with any resident physician or surgeon under any form of contract or agreement, direct or indirect.

Sec. 9. Be it further enacted, that any person shall be regarded as practicing medicine or surgery, within the meaning of this act, who shall prescribe for the sick or those in need of medical or surgical aid, and shall charge or receive therefor money or other compensation or consideration, directly or indirectly; provided, however, that midwives and nurses shall not be regarded as practicing medicine or surgery.

Sec. 10. Be it further enacted, that any person who shall practice medicine or surgery in this State in violation of the provisions of this act shall, upon conviction, be punished as prescribed in section 4310 of the code of the State of Georgia for each offense; and it shall not be lawful for him to recover by action, suit, motion or warrant any compensation for service which may be claimed to have been rendered by him as such physician or surgeon.

Sec. 11. Be it further enacted, that all laws and parts of laws in conflict with this act be, and the same are, hereby repealed.

Approved December 12th, 1894.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in **DISPLAY TYPE**, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.

PILES

One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

Idaho extends from 42 degrees to 49 degrees north latitude, and from 111 degrees to 117 degrees west longitude, and is bounded on the north by British Columbia, on the south by Nevada and Utah, on the east by Montana and Wyoming, and on the west by Washington and Oregon. It comprises an area of 86,294 square miles, or 55,228,160 acres. The bitter Root Mountains, a chain of the Rockies, form the northeastern boundary, and their spurs and extensions occupy a considerable portion of its surface.

The rivers of the State are, with the exception of the Bear river, tributaries of the Columbia.

The climate is cool and healthful, the mean annual temperature being 52.46.

The following table shows increase in population for 30 years:

1870.....	14,999	1890.	84,385
1880.....	32,610	1900.....	161,772

There are numerous mineral springs in Idaho, but they have not as yet been used to any great extent for medicinal purposes. Large quantities of salt are manufactured from the soda springs in the southern portion of the State.

SYNOPSIS OF MEDICAL LAW

(From Journal of the American Medical Association.)

The State Board of Medical Examiners are appointed by the Governor, and must not have a majority of any one school of medicine. The act of 1889 provides (section 6) that: After the passage of this act, every person, except as hereinbefore provided, desiring to commence the practice of medicine and surgery, or either of them, within the State shall, immediately and prior to commencing the same, make a written application to the State Medical Examining Board, upon suitably prepared blanks, to be furnished by the board, for a license so to do. The applicant shall transmit with said application his or her diploma, together with an affidavit setting forth that said diploma is genuine, and that the applicant is the rightful possessor thereof and the identical person named therein, and that the same was obtained by pursuing the regular course of study or examination in said institution, and setting forth that he or she is a citizen of the United States, or has declared their intention of becoming such. If the said diploma has been issued by a reputable college of medicine in good standing, said applicant shall be eligible to examination. All applicants shall be examined in the applied branches of the theory and practice of medicine and surgery, or either of them, as those branches are taught in the reputable chartered schools of the system of medicine to which the applicant belongs and which the applicant intends to practice, and such examination shall in all cases include anatomy, physiology, pathology, diagnosis, hygiene, chemistry, histology and toxicology. No applicant for license shall be allowed to practice medicine and surgery, or either of them, until such license shall have been granted. The board shall cause the examination to be scientific and practical and sufficiently thorough to test the applicant's fitness to practice medicine and surgery, or either of them, and if the applicant correctly answers at least seventy-five per cent of all the questions submitted, said board shall grant the applicant a license to practice medicine and surgery in this State. Every applicant for license under any of the provisions of this act must furnish sufficient evidence to the board that they are of good moral character. All applications under this section must be accompanied by twenty-five dollars (\$25), which is the fee for examination under this section. Should the applicant fail to pass said examination, the fee is not returnable. The cost of transmission to and from the board of all papers belonging to an applicant under this or any other section of this act shall be paid by the applicant. In case an applicant for examination fails to pass the required examination, he or she may be re-examined after the expiration of six months, and within one year, without the payment of an additional fee, and thereafter said applicant may be examined as often as desired at any regular or special meeting of the board on the payment of the regular fee for such examination. Said board may also refuse a license for unprofessional conduct, or conduct of a criminal, immoral or dishonorable nature.

Section 7 defines what shall be considered "unprofessional or dishonorable" conduct, including participation in criminal acts; employing "cappers" or "steerers;" obtaining fees by professing to cure incurable diseases; violation of professional secrecy; advertising and intemperance. "Any person shall be regarded as practicing medicine and sur-

gery, or either, who shall advertise in any manner, or hold himself or herself out to the public as a physician and surgeon, or either, in this State, or who shall investigate or diagnosticate, or offer to investigate or diagnosticate, any physical or mental ailment of any person with a view of relieving the same as commonly done by physicians or surgeons or suggest, recommend, prescribe or direct, for the use of any person, sick, injured or deformed, any drug, medicine, means or appliance for the intended relief, palliation or cure of the same, with the intent of receiving therefor, either directly or indirectly, any fee, gift or compensation whatsoever." This does not include services rendered in cases of emergency where no fee is charged. Any person who shall present to the board as his own or her own, the diploma of another, or a forged affidavit of identification, or who shall attempt to personate another practitioner of a like or different name, shall, upon conviction thereof, be subject to such fine and imprisonment as are made and provided by the statutes of the State of Idaho for the crime of forgery.

Section 16 gives the usual exemption of government officers, railway surgeons and outside consultants. Licenses must be recorded within thirty days with county recorder. Regular meetings of the board on the first Tuesday in April and October. Special meetings when called.

ILLINOIS.

CAPITAL, SPRINGFIELD.

Population of State, 4,821,550.

(U. S. Census of 1900.)

Number of Physicians, 8,849.

Illinois was organized as a territory March 1, 1809, and admitted as a state December 3, 1818. The population of the state, according to the U. S. census of 1900, is 4,821,550, as compared with a population in 1890 of 3,826,351, showing an increase during the decade of 995,199, or 26 per cent. The following table shows the increase since 1850:

1850...	851,470		1880.....	3,077,871
1860.....	1,711,951		1890....	3,826,351
1870.....	2,539,891		1900.....	4,821,550

In 1673 the early French missionaries and traders from Canada, extending their explorations to the southwest of Lake Michigan, found certain Indians inhabiting this region who were known as the Illinois tribe, or Illini, as the name was first spelled by the French. The name was soon transferred to the river, along the banks of which the Illinois tribe had numerous villages, and afterwards applied to the country on either side of the river and as far south as the Ohio. During the French and the British occupations this rather indefinite region was known as "The Illinois county," retaining the name "Illinois" when organized afterwards as a territory and a state.

The parallel 42 degrees 30 minutes north latitude forms the northern boundary extending from Lake Michigan to the Mississippi river, a distance of about 150 miles. About the same length of its eastern boundary is formed by the meridian 10 degrees 25 minutes west from Washington. Besides these two lines it has the natural boundaries of Lake Michigan on the northeast, the Wabash and Ohio rivers on the east and southeast, and the Mississippi for its very irregular western boundary. Its extreme length, north and south, is 385 miles, and its greatest width, east and west, 218 miles. Its area is about 56,000 square miles, or 35,840,000 acres, nearly the whole of which is arable, the state containing a smaller proportion of waste land than any state in the Union with the possible exception of Iowa. Its area is greater than that of England or the two kingdoms of Denmark and Portugal combined, or of all the New England states exclusive of Maine. It is easily the first agricultural state in the Union, and ranks first also in its railroad mileage. It is now the third state in population, among the first in manufacturing industries, and has within its boundaries a wealth of resources unsurpassed by any other state.

The climate is pleasant and healthful and perpetual breezes blow over the prairies, modifying the summer heats, while Lake Michigan makes the neighboring regions warmer in winter and cooler in summer. The diversity of the climate depends largely on the extent of the state north and south, one end being in the latitude of Boston, Mass., and the other in that of Norfolk, Va. The fluctuations in temperature are often great and sudden, but the vital statistics show that the climate is remarkably healthful.

MEDICAL LAW OF ILLINOIS.

(Extract from the Revised Statutes of Illinois, 1899.)

AN ACT TO REGULATE THE PRACTICE OF MEDICINE IN THE STATE OF ILLINOIS, AND TO REPEAL AN ACT THEREIN NAMED.

Section 1. Organization and Duties of State Board of Health.—Be it enacted by the People of the State of Illinois represented in the General Assembly: That the State Board of Health shall organize within three months after the passage of this act; it shall procure a seal and shall receive through its secretary applications for certificates and examinations. The president and secretary shall have the authority to administer oaths, and the board to take testimony in all matters relating to its duties.

Sec. 2. Licenses from State Board of Health Required—Applications for License—Examinations—Graduates of Legally Chartered Medical Colleges in Illinois in good Standing Granted Certificates.—No person shall hereafter begin the practice of medicine, or any of the branches thereof, or midwifery, in this State without first applying for and obtaining a license from the State Board of Health to do so. Application shall be in writing, and shall be accompanied by the examination fees hereinafter specified, and with proof that the applicant is of good moral character. Applications from candidates who desire to practice medicine and surgery in all their branches shall be accompanied by proof that the applicant is a graduate of a medical college or institution in good standing, as may be determined by the board. When the application aforesaid has been inspected by the board and found to comply with the foregoing provisions, the board shall notify the applicant to appear before it for examination, at the time and place mentioned in such notice.

Examinations may be made in whole or in part in writing by the board, and shall be of a character sufficiently strict to test the qualifications of the candidate as a practitioner. The examination of those who desire to practice medicine and surgery in all their branches shall embrace those general subjects and topics, a knowledge of which is commonly and generally required of candidates for the degree of doctor of medicine, by reputable medical colleges in the United States. The examination of those who desire to practice midwifery shall be of such a character to determine the qualification of the applicant to practice midwifery. The examination of those who desire to practice any other system or science of treating human ailments who do not use medicine internally or externally, and who do not practice operative surgery, shall be of a character sufficiently strict to test their qualifications as practitioners. All examinations provided for in this act shall be conducted under rules and regulations prescribed by the board, which shall provide for a fair and wholly impartial method of examination. Provided, that graduates of legally chartered medical colleges in Illinois in good standing, as may be determined by the board, may be granted certificates without examination.

Sec. 3. License to Practice—Provisions.—If the applicant successfully passes his examination, or presents a diploma from a legally chartered medical college in Illinois of good standing, the board shall issue to such applicant a license authorizing him to practice medicine, midwifery or other system of treating human ailments, as the case may be. Provided, that those who are authorized to practice other systems cannot use medicine internally or externally or perform surgical operations. Provided, further, that only those who are authorized to practice medicine and surgery in all their branches shall call or advertise themselves as physicians or doctors. And provided, further, that those who are authorized to practice midwifery shall not use any drug or medicine or attend other than cases of labor. Such license shall be in such form as may be determined by the board, and in accordance with the provisions of this act. Provided, however, that any wilful violation on the part of an applicant of any of the rules and regulations of the board, governing examinations shall be sufficient cause for the board to refuse to issue a license to such applicant. Such certificates shall be signed by all members of the board and attested by the secretary.

Sec. 4. Certificates to be Recorded in Office of County Clerk—Records of County Clerk.—Every person holding a certificate from the State board of health shall have it

recorded in the office of the clerk of the county in which he resides or practices within three months from its date, and the date of recording shall be endorsed thereon. Until such certificate is recorded, as herein provided, the holder thereof shall not exercise any of the rights or privileges conferred therein. Any person practicing in another county shall record the certificate in like manner in the county in which he practices, and the holder of the certificate shall pay to the county clerk the usual fee for making the record. The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the issue of the certificate. The register of the county clerk shall be open to public inspection during business hours.

Sec. 5. Examination Fees.—The fees for examination and for a certificate shall be as follows: Ten (10) dollars for examination in medicine and surgery, and five (5) dollars for a certificate, if issued. Five (5) dollars for an examination in midwifery, and three (3) dollars for a certificate, if issued. For all other practitioners ten (10) dollars for an examination, and five (5) dollars for a certificate, if issued.

Sec. 6. Unprofessional or Dishonorable Conduct—Board May Withhold or Revoke Certificates—Hearing.—The State Board of Health may refuse to issue the certificates provided for in this act to individuals who have been convicted of the practice of criminal abortion, or who have by false or fraudulent representation obtained or sought to obtain practice in their profession, or, by false or fraudulent representation of their profession, have obtained or sought to obtain money or any other thing of value, or who advertise under names other than their own, or for any other unprofessional or dishonorable conduct, and the Board may revoke such certificates for like causes. Provided, that no certificates shall be revoked or refused until the holder or applicant shall be given a hearing before the Board.

Sec. 7. Definition of This Act.—Any person shall be regarded as practicing medicine, within the meaning of this act, who shall treat, or profess to treat, operate on or prescribe for any physical ailment or any physical injury to or deformity of another. Provided, that nothing in this section shall be construed to apply to the administration of domestic or family remedies in cases of emergency, or to the laws regulating the practice of dentistry or of pharmacy. And this act shall not apply to surgeons of the United States army, navy or marine hospital service in the discharge of their official duties, or to any person who ministers to or treats the sick or suffering by mental or spiritual means, without the use of any drug or material remedy.

Sec. 8. Itinerant Venders.—License—Penalties.—That any itinerant vender of any drug, nostrum, ointment or appliance of any kind intended for the treatment of diseases or injury, who shall, by writing or printing, or any other method, profess to the public to cure or treat disease or deformity by any drug, nostrum or application, shall pay a license of one hundred (100) dollars per month into the treasury of the board, to be collected by the board in the name of the people in the State of Illinois, for the use of said board. And it shall be lawful for the State board of health to issue such license on application made to said board, said license to be signed by the president of the board and attested by the secretary with the seal of the board; but said board may, for sufficient cause, refuse said license. And such itinerant vender, who shall, by writing or printing, or any other method, profess to cure or treat disease or deformity by any drug, nostrum or appliance without a license so to do, shall be deemed guilty of a violation of this section, and, upon conviction, shall be subject to the penalties hereinafter provided.

Sec. 9. Penalty for Practicing Without License.—Any person practicing medicine or surgery or treating human ailments in the State without a certificate issued by this board in compliance with the provisions of this act, or any itinerant vender violating the provisions of section 8 of this act, shall, for each and every instance of such practice or violation, forfeit and pay to the people of the State of Illinois, for the use of the said board of health, the sum of one hundred (100) dollars for the first offense, and two hundred (200) dollars for each subsequent offense, the same to be recovered in an action of debt before any court of competent jurisdiction, and any person filing or attempting to file as his own the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of a felony, and, upon conviction, shall be subject to such fine and imprisonment as are made and provided by the statutes of the State for a crime of forgery. Provided, that this section shall not apply to physicians who hold unrevoked certificates from the State board of health issued prior to the time of the taking effect of this act.

Sec. 10. Enforcing Penalties—Appeals.—Upon conviction of either of the offenses mentioned in this act, the court shall, as a part of the judgment, order that the defendant be committed to the common jail of the county until the fine and costs are paid, and, upon failure to pay the same immediately, the defendant shall be committed under said order for first offense not more than thirty (30) days, and for each subsequent offense not more than ninety (90) days. Provided, that either party may appeal in the same time and manner as appeals may be taken in other cases, except that where an appeal is prayed in behalf of the people, no appeal bond shall be required to be filed, whether the appeal be from the justice of the peace or from the county or circuit courts, or from the appellate court. But it shall be sufficient in behalf of the people of the State of Illinois, for the use of the State board of health, to pray an appeal, and thereupon appeal may be had without bond or security.

Sec. 11.—Board to Make Report of Proceedings and Pay All Funds Into State Treasury on September 30th of Each Year.—On the 30th day of September of each year the State board of health shall make report of its proceedings, showing all items of receipts from all sources and disbursements for all purposes, and all funds in the treasury on said date
